Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

List of Figures

2.1	Data used in the benchmark specification	26
2.2	Time-invariant impulse responses I – benchmark specification	30
2.3	Time-invariant impulse responses II – extended specification	31
2.4	Time-varying impulse responses I – selected quarters	33
2.5	Time-varying impulse responses II – each year	34
2.6	Time-varying impulse responses III – selected horizons	35
2.7	Pair-wise joint posterior dist. of time-varying impulse responses	36
2.8	Time-varying impulse responses IV – extended specifications	37
2.9	Robustness I – smaller prior scaling factor k_Q	39
2.10	Robustness II – smaller prior scaling factor k_S	40
2.11	Robustness III – smaller prior scaling factor k_W	41
2.12	Robustness IV – stationarity conditions imposed	42
2.13	Potential determinants of spending multipliers	49
2.14	Convergence diagnostics for state vectors	63
3.1	Model impulse responses I – both types of spending shocks	75
3.2	Model impulse responses II – unanticipated spending shock	77
3.3	Model impulse responses III – anticipated spending shock	78
3.4	Monte Carlo impulse responses – standard SVAR scheme I	84
3.5	Monte Carlo impulse responses – standard SVAR scheme II	85

3.6	Monte Carlo impulse responses – expectations-based scheme I	86
3.7	Monte Carlo impulse responses – expectations-based scheme II	87
3.8	Monte Carlo impulse responses – alternative scheme	88
3.9	Robustness I – Monte Carlo impulse responses in small samples	90
3.10	Robustness II – model impulse responses to a productivity shock when spending can react to lagged productivity	91
3.11	Robustness III – Monte Carlo impulse responses to an anticipated spend- ing shock when spending reacts to lagged productivity	92
3.12	Robustness IV – Monte Carlo impulse responses to an anticipated spend- ing shock when spending reacts to lagged productivity (observed)	93
3.13	Robustness V – Monte Carlo impulse responses to an unanticipated spending shock when spending reacts to current productivity	95
3.14	Robustness VI – Monte Carlo impulse responses to an unanticipated spending shock when spending reacts to current productivity (observed)	96
3.15	Robustness VII – Monte Carlo impulse responses under non-fundamental scheme	97
3.16	Expectational errors on U.S. federal government spending	100
3.17	Empirical impulse responses I – expectations-based scheme	101
3.18	Empirical impulse responses II – standard SVAR scheme	102
3.19	Empirical impulse responses III – both schemes	103
3.20	Identified spending shocks	106
3.21	Empirical impulse responses IV – extended specification	108
3.22	Empirical impulse responses V – alternative scheme	110
4.1	Impulse responses to a surprise spending shock	141
4.2	Impulse responses to a pre-announced spending shock I	143
4.3	Impulse responses to a pre-announced spending shock II	144

4.4	Crisis policy I – immediate spending stimulus	146
4.5	Crisis policy II – delayed spending stimulus	148
4.6	Crisis policies III to V – immediate transfers to intermediaries, delayed transfers, and zero interest loans with delayed repayment	149
4.7	Crisis policy VI – loans at penalty interest rates	150
4.8	Output gains from penalty-rate loans	151
4.9	Output gains from stimuli and transfers under mixed financing	152
5.1	Estimated expected default rate $E_t\delta_{t+1}$ and EMBIG Turkey spreads	180
5.2	Observed variables and their one-step ahead forecasts	183
5.3	Estimated and counterfactual impulse responses to a productivity shock	185
5.4	Estimated impulse responses to a productivity shock in both models	187
5.5	Estimated expected default rates $E_t\delta_{t+1}$ for alternative models	191
