You will be contacted as soon as possible.
List of Figures

2.1 Data used in the benchmark specification .......................... 26
2.2 Time-invariant impulse responses I – benchmark specification .... 30
2.3 Time-invariant impulse responses II – extended specification ........ 31
2.4 Time-varying impulse responses I – selected quarters ............... 33
2.5 Time-varying impulse responses II – each year ......................... 34
2.6 Time-varying impulse responses III – selected horizons .............. 35
2.7 Pair-wise joint posterior dist. of time-varying impulse responses ..... 36
2.8 Time-varying impulse responses IV – extended specifications ....... 37
2.9 Robustness I – smaller prior scaling factor $k_Q$ ....................... 39
2.10 Robustness II – smaller prior scaling factor $k_S$ ................. 40
2.11 Robustness III – smaller prior scaling factor $k_W$ ............... 41
2.12 Robustness IV – stationarity conditions imposed ................ 42
2.13 Potential determinants of spending multipliers ...................... 49
2.14 Convergence diagnostics for state vectors .......................... 63

3.1 Model impulse responses I – both types of spending shocks ........ 75
3.2 Model impulse responses II – unanticipated spending shock ........ 77
3.3 Model impulse responses III – anticipated spending shock ........ 78
3.4 Monte Carlo impulse responses – standard SVAR scheme I .......... 84
3.5 Monte Carlo impulse responses – standard SVAR scheme II .......... 85
3.6 Monte Carlo impulse responses – expectations-based scheme I  
3.7 Monte Carlo impulse responses – expectations-based scheme II  
3.8 Monte Carlo impulse responses – alternative scheme  
3.9 Robustness I – Monte Carlo impulse responses in small samples  
3.10 Robustness II – model impulse responses to a productivity shock when spending can react to lagged productivity  
3.11 Robustness III – Monte Carlo impulse responses to an anticipated spending shock when spending reacts to lagged productivity  
3.12 Robustness IV – Monte Carlo impulse responses to an anticipated spending shock when spending reacts to lagged productivity (observed)  
3.13 Robustness V – Monte Carlo impulse responses to an unanticipated spending shock when spending reacts to current productivity  
3.14 Robustness VI – Monte Carlo impulse responses to an unanticipated spending shock when spending reacts to current productivity (observed)  
3.15 Robustness VII – Monte Carlo impulse responses under non-fundamental scheme  
3.16 Expectational errors on U.S. federal government spending  
3.17 Empirical impulse responses I – expectations-based scheme  
3.18 Empirical impulse responses II – standard SVAR scheme  
3.19 Empirical impulse responses III – both schemes  
3.20 Identified spending shocks  
3.21 Empirical impulse responses IV – extended specification  
3.22 Empirical impulse responses V – alternative scheme  
4.1 Impulse responses to a surprise spending shock  
4.2 Impulse responses to a pre-announced spending shock I  
4.3 Impulse responses to a pre-announced spending shock II
4.4 Crisis policy I – immediate spending stimulus .......................... 146
4.5 Crisis policy II – delayed spending stimulus .......................... 148
4.6 Crisis policies III to V – immediate transfers to intermediaries, delayed transfers, and zero interest loans with delayed repayment .......................... 149
4.7 Crisis policy VI – loans at penalty interest rates .......................... 150
4.8 Output gains from penalty-rate loans ............................................. 151
4.9 Output gains from stimuli and transfers under mixed financing .......................... 152

5.1 Estimated expected default rate $E_t \delta_{t+1}$ and EMBIG Turkey spreads ... 180
5.2 Observed variables and their one-step ahead forecasts .......................... 183
5.3 Estimated and counterfactual impulse responses to a productivity shock 185
5.4 Estimated impulse responses to a productivity shock in both models ... 187
5.5 Estimated expected default rates $E_t \delta_{t+1}$ for alternative models .......................... 191
