

Contents

Chapter 1	General introduction	5
Chapter 2	Development of an easily made artificial sediment that reduces experimental variability	13
Chapter 3	Life cycle responses of the midge <i>Chironomus riparius</i> to compounds with different modes of action	21
Chapter 4	Response of the non-biting midge <i>Chironomus riparius</i> to multigeneration toxicant exposure	35
Chapter 5	Combining next-generation sequencing and microarray technology into a transcriptomics approach for the non-model organism <i>Chironomus riparius</i>	49
Chapter 6	Gene expression patterns and life cycle responses of toxicant-exposed chironomids	67
Chapter 7	Concluding remarks	81
