Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

List of Figures

2.1	RNCEP area flowchart	18
2.2	RNCEP point flowchart	21
3.1	Flow-assistance	30
3.2	Flow-assistance difference	37
3.3	Flow-assistance sensitivity	39
3.4	Flow-assistance trajectories	42
4.1	W. Europe migration map	51
4.2	Spring wind summary plot	55
4.3	Autumn wind summary plot	57
5.1	De Bilt radar	66
5.2	Altitude distributions of bird density	68
5.3	Spring weather conditions	75
5.4	Autumn weather conditions	77
5.5	Altitude of best wind support vs. altitude of most birds	78
5.6	Wind support and bird density correlations	78
5.7	GAM results	81
6.1	Map of radar, HIRLAM, and NCEP locations	91
6.2	Time series: De Bilt and Den Helder	102
6.3	Tracks and headings	102
6.4	De Bilt: baseline intensity	103
6.5	Den Helder: baseline intensity	104
6.6	Autocorrelation in bird density	107

6.7	De Bilt: performance of models	108
6.8	Den Helder: performance of models	109
6.9	De Bilt: predicted vs. measured	111
6.10	Den Helder: predicted vs. measured	113
6.11	Weighted and unweighted predictions	118
