Sylvia Vijgen was born on September 30th 1977 in Terheijden, The Netherlands. After she finished high school (VWO) at Sint Michiel in Geleen in 1996, she enrolled in the study Health Sciences at Maastricht University. In November 2000, she graduated with a master degree with a specialization in Health Economics, Policy and Management. She studied Business Economics at Maastricht University for 1 year thereafter. In 2001 she joined the Department of Health Organisation, Policy and Economics at the Faculty of Health Sciences at Maastricht University in the role of junior researcher and in 2003 she moved on to a research role at the Department of General Practice at the Faculty of Medicine at Maastricht University.

From May 2004 until May 2007 she worked as a HTA-researcher at the National Institute of Public Health and the Environment (RIVM) in Bilthoven, working on projects concerning the costs and cost-effectiveness of preventive interventions in health care.

From May 2007 until December 2010 she worked as a HTA-researcher and PhD student at the Academic Medical Centre for the Dutch Obstetrics Research Consortium. Here she performed economic evaluation studies alongside several randomized clinical trials performed within the Consortium. This research was supervised by prof. dr B.W.J. Mol (promotor) and dr B.C. Opmeer (co-promotor) and resulted in this thesis. She also supported other Consortium researchers with database management, and was responsible for feedback reports for research nurses on completeness and quality of data entry.

Currently, Sylvia Vijgen works as an advisor pharmacoeconomics at the Dutch Health Care Insurance Board (CVZ) where she is responsible for the assessment of pharmacoeconomics dossiers that are submitted by pharmaceutical companies and other parties to get reimbursement for their medicines in the Netherlands.

Sylvia Vijgen lives with Roul Haerden in Almere together with their two daughters Carmen and Amber.
