## TABLE OF CONTENTS

1 - Introduction ....................................................................................................... - 7 -  
2 - Hyperspectral imaging for non-contact analysis of forensic traces .......... - 13 -  
3 - Reflectance spectroscopy and hyperspectral imaging for the identification of blood stains .................................................................................. - 43 -  
4 - Hyperspectral imaging for the age estimation of blood stains at the crime scene ............................................................................................... - 63 -  
5 - Practical implementation of blood stain age estimation ....................... - 79 -  
6 - Visualization of latent blood stains using visible reflectance hyperspectral imaging and chemometrics ......................................................... - 97 -  
7 - Identification and age estimation of blood stains on coloured backgrounds by near infrared spectroscopy ........................................................ - 111 -  
8 - Infrared imaging of the crime scene: possibilities and pitfalls .............. - 131 -  
9 - Discussion ....................................................................................................... - 149 -  
10 - References ................................................................................................... - 169 -  
11 - Summary ..................................................................................................... - 189 -  
12 - Samenvatting .............................................................................................. - 191 -  
13 - Curriculum vitae .......................................................................................... - 195 -  
14 - Portfolio ...................................................................................................... - 196 -  
15 - List of publications ..................................................................................... - 198 -  
16 - Dankwoord .................................................................................................. - 201 -
