Small renal mass cryosurgery: Imaging and vascular changes
Lagerveld, Brunolf

Citation for published version (APA):
PUBLICATIONS AND ABSTRACTS
SUMMARY PUBLICATIONS

Cryotherapy for renal-cell cancer: diagnosis, treatment, and contrast-enhanced ultrasonography for follow-up.

Contrast-enhanced ultrasonography in the follow-up of cryoablation or renal tumours: a feasibility study.

Vascular fluorescence casting and imaging cryomicrotomy for computerized three dimensional renal arterial reconstruction.

The immediate effect of kidney cryoablation on renal arterial structure in a porcine model studied by imaging cryomicrotome.

Gradient changes of porcine renal arterial vascular anatomy and blood flow after cryoablation.

SUBMITTED MANUSCRIPTS under review

Accepted:
Can RENAL and PADUA nephrometry indices predict for complications of laparoscopic cryoablation for clinical stage T1 renal tumors?
Submitted:
$^{18}$F-FDG PET-CT findings before and after laparoscopic renal cryoablation; an initial report.
Lagerveld BW, Sandkuyl R, Sivro F, van der Zee JA, Baars P.

RELATED ABSTRACTS

Acute vascular changes in renal arterial anatomy after cryosurgery.
Spaan J, Lagerveld BW, van Horssen P, van den Wijngaard J, de la Rosette J, Wijkstra H.

Acute changes in renal arterial anatomy after cryosurgery in a porcine model.

Gradient changes of porcine renal arterial vascular anatomy and blood flow after cryoablation.

Cryoablation induced alterations of porcine renal anatomy and blood flow.
Lagerveld BW, van Horssen P, Laguna Pes MP, van den Wijngaard JPHM, Wijkstra H, Spaan JAE, de la Rosette JMCH.

Laparoscopic renal mass cryoablation: relation between comorbidity and post-operative complications.
Lagerveld BW, van Dijk MM, Noë AP, van der Zee JA.
The value of 18F-FDG PET-CT for the evaluation of treatment success of cryosurgery for small renal mass: a pilot study.
Lagerveld BW, Sandkuyl, R, Sivro F, van der Zee J, Baars P.

Lagerveld BW, van Dijk M. van der Zee JA.

De waarde van RENAL- en PADUA-indices bij het voorspellen van complicaties als gevolg van laparoscopische cryoablatie van niertumoren.
Lagerveld BW, Brenninkmeijer M, van der Zee JA, van Haarst EP.
NAMES AND INSTITUTES OF THE AUTHORS INVOLVED IN THE MANUSCRIPTS AND ABSTRACTS (alphabetical order)

Dr. P.C. Baars
Department of Nuclear Medicine, St. Lucas Andreas Hospital, Amsterdam, the Netherlands.

Drs. M. Brenninkmeijer
Department of Urology, Waterland Hospital, Purmerend, the Netherlands.

Dr. H. van Dekken
Department of Pathology, St. Lucas Andreas Hospital, Amsterdam, the Netherlands.

Drs. E.P. van Haarst
Department of Urology, St. Lucas Andreas Hospital, Amsterdam, the Netherlands.

Dr. P. van Horssen
Department of Biomedical Engineering and Physics, Academic Medical Center, Amsterdam, the Netherlands.

Dr. M.P. Laguna Pes
Department of Urology, Academic Medical Center, Amsterdam, the Netherlands.

Drs. A.P. Noë
the Netherlands.

Prof. dr. J.J.M.C.H. de la Rosette
Department of Urology, Academic Medical Center, Amsterdam, the Netherlands.

Drs. R. Sandkuyl
Department of Urology, Onze Lieve Vrouwe Gasthuis, the Netherlands.

Dr. M. Siebes
Department of Biomedical Engineering and Physics, Academic Medical Center, Amsterdam, the Netherlands.

Dr. F. Sivro
Department of Nuclear Medicine, St. Lucas Andreas Hospital, Amsterdam, the Netherlands.

Prof. dr. ir. J.A.E. Spaan
Department of Biomedical Engineering and Physics, Academic Medical Center, Amsterdam, the Netherlands.

Dr. ir. G.J. Streekstra
Department of Biomedical Engineering and Physics, Academic Medical Center, Amsterdam, the Netherlands.
Msc. R.D. ter Wee  Department of Biomedical Engineering and Physics, Academic Medical Center, Amsterdam, the Netherlands.

Prof. dr. Ir. H. Wijkstra  Department of Urology, Academic Medical Center, Amsterdam, the Netherlands.

Drs. M.H. Wink  Department of Radiotherapy, Vlietland Hospital, Schiedam, the Netherlands.

Dr. J.P.H.M. van den Wijngaard  Department of Biomedical Engineering and Physics, Academic Medical Center, Amsterdam, the Netherlands.

Drs. J.A. van der Zee  Department of Urology, St. Lucas Andreas Hospital, Amsterdam, the Netherlands.
