Subject position in Spanish

Spanish has flexible word order:

Un chico llegó
A boy arrived

but V2!

Buiten/er/dat Outside/There/that
flw whistled

Adv/OBJ V

een jongen
a boy

More evidence for postverbal subjects

Research Questions

1. Will Dutch HS of Spanish show less overgeneralization of preverbal subjects (but deviate from monolinguals?)

2. (When) do bilingual children deviate from monolinguals?

The present study

A) Adult Participants

24 heritage speakers

• Born in the Netherlands, or arrived before 5
• Mixed families
• No Caribbean dialects

18 monolingual speakers of Spanish

• Recently immigrated to the Netherlands.
• No knowledge of Dutch
• No Caribbean dialects

B) Child Participants

30 heritage speakers

• 9 and 13 years old
• Born in the Netherlands, or arrived before 5
• Mixed families
• No Caribbean dialects

44 monolingual speakers of Spanish

• 9 and 13 years old
• Born and raised in Spain
• No knowledge of other languages

Conclusions

1. Both monolingual and Dutch heritage speakers increase the preference of VS across the lifetime

2. In Dutch bilinguals, this VS preference is more pronounced in all age groups

3. This overgeneralization might be due to the influence of V2 in Dutch

References

El gato llegó

Llegó el gato

Children

Preference Judgment Task:

Three dogs are playing at the beach and having a lot of fun. While they play, their friend the cat comes and sees them and he gets very sad because they had not asked him to join them.

Method

Contextualized Scalar Acceptability Judgment Task:

Es mi cumpleaños y hay mucha gente de visita en mi casa. De repente suena el timbre pero como justo estoy recibiendo un regalo de mi tío, no puedo abrir la puerta. Va mi esposa y ve que son unos primos. Cuando regresa, le pongo: ¡¿Quién llegó? Mi esposa me dice:

It’s my birthday and there are many guests in my house. Suddenly the doorbell rings, but since I’m just receiving a gift from my uncle, I cannot open the door. My wife goes and sees that it’s some cousins. When she gets back, I ask her: ‘Who arrived?’ My wife tells me:

Unos primos llegaron.
Some cousins arrived.

02 1 0 1 2

Preferences: Arrived some cousins.

Simplification or cross-linguistic influence?
