Heritage speakers
Speakers of a minority language, acquired during childhood in a naturalistic setting in the home context.

Subject position in Spanish
Spanish has flexible word order:

Subject position in Dutch

Research Questions
1. Will Dutch HS of Spanish show less overgeneralization of preverbal subjects (but deviate from monolinguals?)
2. (When) do bilingual children deviate from monolinguals?

The present study

A) Adult Participants
24 heritage speakers
- Born in the Netherlands, or arrived before 5
- Mixed families
- No Caribbean dialects
18 monolingual speakers of Spanish
- Recently immigrated to the Netherlands.
- No knowledge of Dutch
- No Caribbean dialects

B) Child Participants
30 heritage speakers
- 9 and 13 years old
- Born in the Netherlands, or arrived before 5
- Mixed families
- No Caribbean dialects
44 monolingual speakers of Spanish
- 9 and 13 years old
- Born and raised in Spain
- No knowledge of other languages

Results

Conclusions
1. Both monolingual and Dutch heritage speakers increase the preference of VS across the lifetime
2. In Dutch bilinguals, this VS preference is more pronounced in all age groups
3. This overgeneralization might be due to the influence of V2 in Dutch

Method

Children
Preference Judgment Task:

El gato llegó

Adults
Contextualized Scalar Acceptability Judgment Task:

Es mi cumpleaños y hay mucha gente de visita en mi casa. De repente suena el timbre pero como justo estoy recibiendo un regalo de mi tío, no puedo abrir la puerta. Va mi esposa y ve que son unos primos. Cuando regresa, le pregunto: ¿Quién llegó? Mi esposa me dice:

It's my birthday and there are many guests in my house. Suddenly the doorbell rings, but since I'm just receiving a gift from my uncle, I cannot open the door. My wife goes and sees that it's some cousins. When she gets back, she asks me: ‘Who arrived?’ My wife tells me:

Unos primos llegaron.

Some cousins arrived.

El gato llegó

Llegó el gato
