To my best friend and husband Owen,
whose belief is never shaken
and whose support is total.
This thesis is dedicated to you,
with all the love that I possess,
and with gratitude.

Contents

Chapter 1	General introduction	8
Chapter 2	Drug-related causes attributed to acute kidney injury and their documentation in intensive care patients. <i>J Crit Care</i>	22
Chapter 3	Adverse drug event detection using natural language processing: A scoping review of supervised learning methods. <i>PLOS One</i>	44
Chapter 4	Creation of a gold standard Dutch clinical corpus of electronic health record notes for adverse drug event detection: the Dutch ADE corpus. <i>Under review</i>	82
Chapter 5	Identification of Adverse Drug Events in Dutch clinical notes of Intensive Care patients using Large Language Models. <i>In submission</i>	101
Chapter 6	General discussion	122
Appendices		144
	Supplementary material	146
	Portfolio	158
	Author contributions	164
	Funding statement	166
	Summary	168
	Samenvatting	172
	Acknowledgements	178
