About the author
Joanna Ewa Klopotowska was born on 20 March 1978 in Sławnów, Poland. After finishing secondary school in Poland, she moved to the Netherlands at the age of 15 together with her younger sister and mother. After six months of intensive Dutch language course at an International College (Landstede ISK) in Zwolle, The Netherlands, she started her pre-university secondary education (atheneum) at the Thomas à Kempis College in Zwolle in September 1993 and graduated in July 1998.

Subsequently she studied Pharmacy at the University of Groningen. She obtained her Master of Science degree in 2004, followed by Doctor of Pharmacy (PharmD) degree in 2005.

In December 2005 she started working as pharmacist at the Department of Hospital Pharmacy of Academic Medical Centre (AMC) in Amsterdam, and in August 2006 she began her hospital pharmacy residency at this department. She combined her residency with her PhD research presented in this thesis. During her PhD research she collaborated with the Departments of Internal Medicine and Geriatrics and the Departments of Hospital Pharmacy of the AMC, the Westfriesgasthuis in Hoorn, and the Spaarne Hospital in Hoofddorp. As principal researcher of the WINGS study she collaborated with researchers of the Departments of Hospital Pharmacy of the University Medical Centre of Groningen, Leiden and Utrecht.

From September 2012 till March 2013 she worked as a registered hospital pharmacist at the Department of Clinical Pharmacy of the Antonius Hospital in Sneek where she was responsible for further professionalization of medication reconciliation by pharmacy practitioners, conducting medication reviews for nursing home residents and outpatient geriatric clinic, and implementation of medication reviews for the Department of Cardiology.

In May 2013 she started working at the Department of Clinical Pharmacology and Pharmacy of VU Medical Centre in Amsterdam where she holds a position as a registered hospital pharmacist and head of health informatics section. The author is a member of the Pharmaceutical Patient Care and Medication Safety Committee of the Dutch Association of Hospital Pharmacists (NVZA).
