In 2003 she returned to the Netherlands, and worked at the ‘Tropencentrum’ in the Academic Medical Centre in Amsterdam, and with the National Coordination Centre for Travellers Health (LCR) at the department of Infectious Diseases of the Amsterdam Public Health Service (GGD). In order to gain more training in infectious diseases and public health, she went to London in 2004 to do a Master of Science degree in Public Health for Developing Countries at the London School of Hygiene and Tropical Medicine.
