# Table of Contents

**INTRODUCTION** .................................................................................................................................................................................. 9

**CHAPTER 1**  
DISORDERS OF PROGRAMMED CELL DEATH IN LYMPHOCYTES ................................................................. 13

**CHAPTER 2**  
REVISED DIAGNOSTIC CRITERIA AND CLASSIFICATION FOR THE  
AUTOIMMUNE LYMPHOPROLIFERATIVE SYNDROME (ALPS): REPORT FROM THE 2009 NIH INTERNATIONAL WORKSHOP. .................................................................................................................................................. 35

**CHAPTER 3**  
NRAS MUTATION CAUSES A HUMAN AUTOIMMUNE LYMPHOPROLIFERATIVE SYNDROME  
.................................................................................................................................................................................................................... 51

**CHAPTER 4**  
SOMATIC KRAS MUTATIONS ASSOCIATED WITH A HUMAN NON-MALIGNANT SYNDROME OF AUTOIMMUNITY AND ABNORMAL LEUKOCYTE HOMEOSTASIS ......................................................... 77

**CHAPTER 5**  
UTILIZING BIOMARKERS TO PREDICT THE PRESENCE OF FAS MUTATIONS IN  
PATIENTS WITH FEATURES OF THE AUTOIMMUNE LYMPHOPROLIFERATIVE SYNDROME (ALPS)  
.................................................................................................................................................................................................................... 91

**CHAPTER 6**  
CRITICAL ROLE OF BIM IN T CELL RECEPTOR RESTIMULATION-INDUCED DEATH .......................................................... 105

**CHAPTER 7**  
FAS HAPLOINSUFFICIENCY IS A COMMON DISEASE MECHANISM IN THE HUMAN AUTOIMMUNE LYMPHOPROLIFERATIVE SYNDROME .................................................................................................................................................... 131

**CONCLUDING REMARKS** ............................................................................................................................................................................. 155

**SAMENVATTING** .................................................................................................................................................................................. 157

**LIST OF PUBLICATIONS** ........................................................................................................................................................................... 160

**ACKNOWLEDGMENTS/AGRADECIMTOS** ..................................................................................................................................................... 164
