**Disclaimer/Complaints regulations**

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

## TABLE OF CONTENTS

<b>Chapter 1</b>	General introduction and outline of the thesis	9
<b>Chapter 2</b>	Recovery of microcirculation after intracoronary infusion of bone marrow mononuclear cells or peripheral blood mononuclear cells in patients treated by primary percutaneous coronary intervention: the Doppler substudy of the HEBE trial <i>JACC Cardiovascular Interventions 2011;4:913-920</i>	23
<b>Chapter 3</b>	Intracoronary infusion of mononuclear cells from bone marrow or peripheral blood after acute myocardial infarction in patients: the 2-year results from the randomized controlled HEBE trial <i>In preparation</i>	35
<b>Chapter 4</b>	A proinflammatory monocyte response is associated with myocardial injury and impaired functional outcome in patients with ST-segment elevation myocardial infarction: monocytes and myocardial infarction <i>American Heart Journal 2012;163:57-65</i>	45
<b>Chapter 5</b>	Adverse left ventricular remodelling after acute myocardial infarction in patients is associated with attenuated type I interferon signalling <i>In preparation</i>	61
<b>Chapter 6</b>	Monocyte subset accumulation in the human heart following acute myocardial infarction and the role of the spleen as monocyte reservoir <i>Submitted</i>	79
<b>Chapter 7</b>	PET/MRI of inflammation in myocardial infarction <i>Journal of the American College of Cardiology 2012;59:153-163</i>	93
<b>Chapter 8</b>	Suppression of inflammatory signaling in monocytes from patients with coronary artery disease <i>Journal of Molecular and Cellular Cardiology 2009;46:177-185</i>	111
<b>Chapter 9</b>	Myocardial infarction accelerates atherosclerosis <i>Nature 2012;487:325-329</i>	139

<b>Chapter 10</b>	Blocking interferon $\beta$ stimulates vascular smooth muscle cell proliferation and arteriogenesis Journal of Biological Chemistry 2010;285:34677-34685	185
<b>Chapter 11</b>	Galectin-2 expression is dependent on the rs7291467 polymorphism and acts as an inhibitor of arteriogenesis European Heart Journal 2012;33:1076-1084	215
<b>Chapter 12</b>	Summary of the thesis, concluding remarks and future directions	233
	Nederlandse samenvatting	243
	List of publications	248
	Dankwoord	251
	Curriculum Vitae	257
