You will be contacted as soon as possible.
LIST OF PUBLICATIONS

Monoaminergic dysfunction in recreational users of dexamphetamine.
Schouw ML, Caan MW, Geurts HM, Schmand B, Booij J, Nederveen AJ, Reneman L.

Mapping the hemodynamic response in human subjects to a dopaminergic challenge with dextroamphetamine using ASL-based pharmacological MRI.
Schouw ML, Kaag AM, Caan MW, Heijtel DF, Majoie CB, Nederveen AJ, Booij J, Reneman L.
Neuroimage. 2013 May 15;72:1-9

Dopaminergic dysfunction in abstinent dexamphetamine users: Results from a pharmacological fMRI study using a reward anticipation task and a methylphenidate challenge.
Schouw ML, De Ruiter MB, Kaag AM, van den Brink W, Lindauer RJ, Reneman L.
Drug Alcohol Depend. 2013 Jun 1;130(1-3):52-60.

Mapping serotonergic dysfunction in MDMA (ecstasy) users using pharmacological MRI.
Schouw ML, Gevers S, Caan MW, Majoie CB, Booij J, Nederveen AJ, Reneman L.

Preliminary evidence of hippocampal damage in chronic users of ecstasy.

In preparation:
Opposite effects of methylphenidate and d-amphetamine on response inhibition
M.L.J. Schouw, M.B. De Ruiter, M. Bottelier, R.J.L. Lindauer, L. Reneman

Methylphenidate affects emotional behaviour in d-amphetamine users: implications for adhd patients
* These authors contributed equally to the content of this paper

The Effects of Psychotropic drugs On Developing brain (EPOd) study; objectives and methods of a neuroimaging study investigating the effects of fluoxetine and methylphenidate
* These authors contributed equally to the content of this paper
