Accessing word meaning: Semantic word knowledge and reading comprehension in Dutch monolingual and bilingual fifth-graders

Cremer, M.

Citation for published version (APA):
# Table of contents

1. **General introduction**  
1.1 Vocabulary and school success  
1.2 Semantic word knowledge  
  1.2.1 Access to semantic word knowledge  
  1.2.2 Semantic priming  
1.3 Individual differences between learners  
  1.3.1 Bilingual minority children  
1.4 The organisation of this thesis  

2. **Word knowledge and reading: theories and empirical insights**  
2.1 What’s in a word?  
  2.1.1 Semantic and associative relations between words  
  2.1.2 The development of semantic word knowledge  
2.2 Word associations as a reflection of semantic networks  
2.3 The accessibility of word knowledge  
2.4 The role of word knowledge in reading comprehension  
  2.4.1 Word knowledge and reading in monolingual and bilingual children  
2.5 Open issues and focus of the present work  

3. **Do word associations assess word knowledge? A comparison of monolingual and bilingual, child and adult word associations**  
3.1 Background  
  3.1.1 Word knowledge: lexical and semantic network  
  3.1.2 From context dependent to meaning based  
  3.1.3 Assessing word associations: categorization and elicitation
3.2 Method
   3.2.1 Participants 58
   3.2.2 Materials 59
   3.2.3 Procedure 59
   3.2.4 Analyses 62
3.3 Results 64
   3.3.1 Degree of dispersion 65
   3.3.2 Response patterns for main categories 66
   3.3.3 Response patterns for subcategories 67
3.4 Discussion and conclusion 70

4 The role of accessibility of semantic word knowledge in monolingual and bilingual fifth-grade reading 77
4.1 Background 77
   4.1.1 Multidimensionality of word knowledge 80
   4.1.2 Semantic versus contextual word knowledge 81
   4.1.3 Word knowledge and reading 83
   4.1.4 Availability and accessibility of semantic word knowledge 86
4.2 Method 86
   4.2.1 Participants 87
   4.2.2 Materials 88
   4.2.3 Procedure 93
   4.2.4 Analyses 94
4.3 Results 94
   4.3.1 Descriptives 94
   4.3.2 Monolingual and bilingual children 95
   4.3.3 Relationships with reading comprehension 96
   4.3.4 Contributions to reading comprehension 97
4.4 Discussion and conclusion 102
5 Processing semantic relations: word knowledge and reading comprehension in monolingual and bilingual children 107
   5.1 Background 107
      5.1.1 Semantic representations and processing 109
      5.1.2 Monolingual and bilingual children 112
   5.2 Method 114
      5.2.1 Participants 115
      5.2.2 Materials 116
      5.2.3 Procedure 125
      5.2.4 Data handling and analyses 126
   5.3 Results 127
      5.3.1 Descriptives 127
      5.3.2 Semantic priming 128
      5.3.3 Monolingual and bilingual children 132
      5.3.4 Relationships with reading comprehension 133
      5.3.5 Contributions to reading comprehension 134
   5.4 Discussion and conclusion 141

6 Semantic word knowledge in reading comprehension: conclusions 147
   6.1 Introduction 147
   6.2 Summary of main findings 148
      6.2.1 Word associations as a measure of semantic knowledge 148
      6.2.2 Semantic word knowledge: availability and accessibility 149
      6.2.3 Semantic representations and activation 151
   6.3 Theoretical and educational implications 156
   6.4 Methodological considerations and suggestions for future research 159
