Contents

Introduction ........................................................................................................................................... 1

Chapter 1 Perception of surgical complications among patients, nurses and physicians: 
a prospective cross-sectional survey ................................................................................................. 6

Chapter 2 The Comprehensive Complication Index (CCI) - A Novel Continuous Scale to 
Measure Surgical Morbidity ........................................................................................................ 21

Chapter 3 Development and validation of a prediction score for postoperative acute renal 
failure following liver resection ..................................................................................................... 39

Chapter 4 Novel prediction score including pre- and intra-operative parameters best predicts 
renal failure after liver surgery ...................................................................................................... 60

Chapter 5 Does terlipressin improve renal outcome after liver surgery – A multicenter 
double-blinded randomized control trial (TIROL-Trial) ............................................................ 79

Chapter 6 Does pharmacological conditioning with the volatile anesthetic sevoflurane offer 
protection in liver surgery ............................................................................................................. 112

Summary and perspectives ............................................................................................................... 130

Samenvatting ...................................................................................................................................... 135

Dankwoord .......................................................................................................................................... 138

Other publications .................................................................................................................................. 139

Book chapter ......................................................................................................................................... 141

Curriculum vitae ................................................................................................................................. 142
