PHARMACEUTICAL CARE IN SURGICAL PATIENTS

Tools for measurement and intervention

Monica de Boer
ABOUT THE COVER
The cover image visualizes the development of a basic fundamental structure to provide pharmaceutical care: mapping out the moments of contact between two main caregivers (Pharmacy and Surgery). These contact points used to be ‘random’ and disorganized, but hopefully, to improve the quality of care, they will become more structured in the future.

Pharmaceutical care in surgical patients
Tools for measurement and intervention

Thesis, University of Amsterdam, the Netherlands (with summary in Dutch)

The SUREPILL study presented in this thesis was performed at the Departments of Hospital Pharmacy and Surgery of the Academic Medical Centre Amsterdam, Onze Lieve Vrouwe Gasthuis Amsterdam, and Diakonessenhuis Utrecht and was supported by ZonMw, The Netherlands Organization for Health Research and Development (Grant No. 170882706).

Printing of this thesis was financially supported by: AMC Amsterdam - Faculteit der Geneeskunde, Nederlands Bijwerkingen Fonds and Stichting KNMP-fondsen.

“Make a habit of two things: to help; or at least to do no harm.”

Hippocrates
Chapter 1
Introduction and outline thesis

PART I  DEVELOPMENT - Adverse drug events in surgical patients  21

Chapter 2
Cost-effectiveness of ward-based pharmacy care in surgical patients: protocol of the SUREPILL (Surgery & Pharmacy In Liaison) study

Chapter 3
Occurrence and preventability of Adverse Drug Events in surgical patients: a systematic review of literature

Chapter 4
A targeted method for standardized assessment of adverse drug events in surgical patients

PART II  ASSESSMENT- Adverse drug events and quality indicators 81

Chapter 5
Adverse Drug Events in surgical patients: an observational multicentre study

Chapter 6
Quality of pharmaceutical care in surgical patients

PART III IMPROVEMENT - Ward-based pharmacy interventions  121

Chapter 7
Development and implementation of a ward-based pharmacy intervention for Dutch surgical patients

Chapter 8
Effect of a ward-based pharmacy team on preventable adverse drug events in surgical patients

Chapter 9
Summarizing discussion and future perspectives

Chapter 10
Nederlandse samenvatting

Chapter 11
Appendices

List of abbreviations 181

Members of SUREPILL study group 183

Chapter 12
About the author

Curriculum Vitae 187
