INVITATION

To attend the public defense of my thesis:

The Clinical Impact of Immunodeficiency and Viraemia in the Era of Combined Antiretroviral Therapy for HIV-1 Infection

On Tuesday, February 10, 2015
At 12:00
In the Agnietenkapel, Oudezijds Voorburgwal 231, Amsterdam

You are cordially invited to the reception that will be held after the ceremony

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor

aan de Universiteit van Amsterdam

op gezag van de Rector Magnificus

prof. dr. D.C. van den Boom

ten overstaan van een door het college voor de promoties ingestelde

commissie, in het openbaar te verdedigen in de Agnietenkapel

op dinsdag 10 februari 2015, te 12:00 uur

door Shuangjie Zhang

geboren te Henan, China
Promotor:  Prof. dr. P. Reiss
Copromotor:  Prof. dr. F. de Wolf
Overige leden:  Dr. M.F. Schim van der Loeff
              Prof. dr. M.D. de Jong
              Prof. dr. M. Prins
              Dr. S.E. Geerlings
              Prof. dr. M.W. Borgdorff
              Prof. dr. A. Verbon

Faculteit der Geneeskunde
To Arno and my parents
Table of contents

Chapter 1 9
General introduction

Chapter 2 23

Chapter 3 29

Chapter 4 39

Chapter 5 49

Chapter 6 61
Risk of non-AIDS-defining events amongst HIV-infected patients not yet on antiretroviral therapy. HIV Medicine (in press).
# Table of contents

**Chapter 1**  
General introduction

**Chapter 2**  
Immunologic, virologic, and clinical consequences of episodes of transient viremia during suppressive combination antiretroviral therapy.  

**Chapter 3**  
Clinical significance of transient HIV type-1 viraemia and treatment interruptions during suppressive antiretroviral treatment.  

**Chapter 4**  
Episodes of HIV viremia and the risk of non-AIDS diseases in patients on suppressive antiretroviral therapy.  

**Chapter 5**  
Long-term complications in patients with poor immunological recovery despite virological successful HAART in Dutch ATHENA cohort.  
*AIDS.* 2012 Feb 20;26(4):465-74

**Chapter 6**  
Risk of non-AIDS-defining events amongst HIV-infected patients not yet on antiretroviral therapy  
*HIV Medicine (in press)*
