A thesis that contributes to the development of optical techniques to assess microcirculation functionality for the diagnosis, monitoring, therapy guidance and understanding of many diseases ranging from the onset of septic shock to the delivery of drugs to tumours. The first part of this thesis aims to develop a non-invasive technique to quantify microcirculatory blood flow velocity based on laser speckle flowmetry. The second part is devoted to the quantification of optical signals arising from photoluminescent upconversion nanoparticles for sensitive detection in biomedical tissues. The combination of these techniques is particularly useful in the context of tumour therapy by providing information on tumour angiogenesis, enabling molecular contrast and delivering nanoparticle-based drugs.
Glow with the flow: Quantifying blood flow and photoluminescence signal in biological tissue

Annemarie Nadort
Glow with the flow: Quantifying blood flow and photoluminescence signal in biological tissue
PhD thesis, University of Amsterdam, The Netherlands

The research in this thesis was funded by:

MACQUARIE UNIVERSITY  amC MicroVisionMedical

The public defence ceremony and printing of this thesis were kindly sponsored by:

Gerbrand de Jong Fonds Ocean Optics MicroVisionMedical oma

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. D.C. van den Boom
ten overstaan van een door het College voor Promoties ingestelde
commissie, in het openbaar te verdedigen in de Agnietenkapel
op woensdag 1 april 2015, te 14:00 uur

door

Annemarie Nadort

geboren te Zaanstad
PROMOTIECOMMISSIE

Promotores:  prof. dr. A.G.J.M. van Leeuwen  Universiteit van Amsterdam
prof. dr. M.C.G. Aalders  Universiteit van Amsterdam

Co-promotor:  dr. ir. D.J. Faber  Universiteit van Amsterdam

Overige leden:  prof. dr. E.T. van Bavel  Universiteit van Amsterdam
prof. dr. W.J. Buma  Universiteit van Amsterdam
prof. dr. H.J.C.M. Sterenborg  Erasmus Universiteit Rotterdam
prof. dr. ir. W. Steenbergen  Universiteit Twente
dr. E.G. Mik  Erasmus MC
