Modeling and managing the patients' need for clinical care: Enhancing evidence-based practice and management

van Oostveen, C.J.

Citation for published version (APA):
MODELING AND MANAGING the patients’ need for clinical care

ENHANCING EVIDENCE-BASED PRACTICE AND MANAGEMENT

CATHARINA VAN OOSTVEEN

Catharina Jacoba van Oostveen was born in Breukelen, The Netherlands on October 10th 1982. After finishing secondary school in 2000, she graduated Nursing school in 2004 at the University of applied sciences in Amsterdam, the Amsterdam School of Health Professions. Then her clinical career started at a nursing ward for Gastro-Intestinal surgery at the Academic Medical Center in Amsterdam. She became a medium care nurse for the Surgical medium care in 2006 and was appointed ´senior nurse´ in 2008, focussing on quality improvement and innovation.

During her clinical career in 2008, she started her Masters in Nursing Science at the University of Utrecht, which she completed in 2010. Her Master thesis was the start of her PhD programme "Modeling and managing the patients’ need for clinical care". Here, she focused on patients’ demand for healthcare services on strategic, (i.e. hospital costs) tactical and operational level (i.e. budget planning and staffing resources).

Throughout this period she became a supporter of nursing professionalization and interprofessional collaboration as it became clear that these issues are very important in managing the demand and quality of patient care.

In the future, she will remain active in research on outcomes of nursing care, nursing professionalization and interprofessional collaboration. Also, she wishes to integrate both clinical and academic work in her career and hopes to be a role model for the clinical academic nurse, ultimately to improve quality, safety and efficiency of clinical practice.

Catharina is, next to nurse and scientist, married to Ewoud Willem van Os and mother of two sons Quinten (2005) and Olivier (2011).
MODELING AND MANAGING
the patients’ need for clinical care
ENHANCING EVIDENCE-BASED
PRACTICE AND MANAGEMENT

Op vrijdag 20 februari 2015 om 11:00 uur in de aula van de Universiteit van Amsterdam, Oude Lutherse kerk, Singel 411 (hoek Spui) te Amsterdam. Receptie na afloop van de promotie aldaar.
