Percutaneous coronary intervention in acute myocardial infarction: from procedural considerations to long term outcomes

Ronak Delewi
Percutaneous coronary intervention in acute myocardial infarction: from procedural considerations to long term outcomes

Ronak Delewii
The research described in this thesis was supported by a grant of the Dutch Heart Foundation (Grant number NHS-2011T022) and the National Health Insurance Board/ZON MW (grant number 40-00703-98-11629). Moreover, this work was supported by the Netherlands Heart Institute (ICIN).

Financial support by the Dutch Heart foundation for the publication of this thesis is gratefully acknowledged.

Generous support by Osprey Medical Inc. and Svelte Medical Systems for the publication of this thesis is gratefully acknowledged.

Financial support for printing this thesis was provided by the University of Amsterdam, Abbott Vascular, Bayer Health Care, Biotronik, Chipsoft, Guerbet Nederland B.V., Pfizer, Sigma medical, Servier Nederland Farma B.V., St. Jude Medical, Stentys.

Percutaneous coronary intervention in acute myocardial infarction: from procedural considerations to long term outcomes

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. D.C. van den Boom
ten overstaan van een door het College voor Promoties ingestelde
commissie, in het openbaar te verdedigen in de Agnietenkapel
op woensdag 13 mei 2015, te 14:00 uur

door Ronak Delewi
geboren te Naarden
Promotiecommissie

Promotores: prof. dr. J.J. Piek
            prof. dr. F. Zijlstra

Co-promotores: prof. dr. J.G.P. Tijssen
               dr. A. Hirsch

Overige leden: prof. dr. J.B.L. Hoekstra
               prof. dr. S. Janssens
               prof. dr. C.B.L.M. Majoie
               prof. dr. R.J.G. Peters
               prof. dr. Y.M. Pinto
               prof. dr. A.H. Zwinderman
