PUBLICATIONS AND CONTRIBUTIONS OF CO-AUTHORS

Chapter 1 will be submitted as:

Aktar, E., & Bögels, S. M. (in preparation). Exposure to Parents' Negative Emotions as a Developmental Pathway in the Family Aggregation of Depression and Anxiety in the First Year of Life. *Clinical Child and Family Psychology Review*.

Contributions:

Evin Aktar wrote the paper as the first author under supervision of Susan Bögels who was the project leader of the study. Susan Bögels contributed to the writing of the discussion section, and reviewed the paper.

Chapter 2 is submitted as:

Aktar, E., Colonesi, C., De Vente, W., Majdandžić, M., & Bögels, S. M. (under review). How Do Infants' Temperament, and Parents' Depression and Anxiety Alter Parent-Infant Face-to-face Interactions? *Development and Psychopathology*.

Contributions:

Susan Bögels, Cristina Colonesi, Mirjana Majdandžić and Wieke De Vente designed the study. Evin Aktar coded the observational data from parents. As the first author of this paper, she also conducted the statistical analyses and wrote the paper. Cristina Colonesi coded the observational data from infants and supervised the coding of parent data. She also contributed to the statistical analyses, and reviewed the paper. Mirjana Majdandžić reviewed the paper and the statistical analyses. Wieke De Vente contributed to the statistical analyses, and reviewed the paper. Susan Bögels reviewed the paper and the statistical analyses. Susan Bögels was the project leader of the study.

Chapter 3 is published as:

Aktar, E., Majdandžić, M., De Vente, W., & Bögels, S. M. (2013). The interplay between expressed parental anxiety and infant behavioral inhibition predicts infant avoidance in a social referencing paradigm. *Journal of Child Psychology and Psychiatry*, *54*, 144-156.

Contributions:

Susan Bögels, Mirjana Majdandžić and Wieke De Vente designed the study and collected the observational data. Evin Aktar coded the observational data on social referencing tasks, conducted the statistical analyses and wrote the article as the first author of this study. Mirjana Majdandžić coded the observational data on behavioral inhibition tasks, supervised the coding of social referencing tasks and reviewed the paper and the statistical analyses. Wieke De Vente contributed to the statistical analyses, and reviewed the paper. Susan Bögels contributed to the statistical analyses, and reviewed the paper. Susan Bögels was the project leader of this study.

Chapter 4 is published as:

Aktar, E., Majdandžić, M., De Vente, W., & Bögels, S. M. (2014). Parental social anxiety disorder prospectively predicts toddlers' fear/avoidance in a social referencing paradigm. *Journal of Child Psychology and Psychiatry*, 55, 77-87.

Contributions:

Susan Bögels, Mirjana Majdandžić and Wieke De Vente designed the study and collected the observational data. Evin Aktar coded the observational data on social referencing tasks, conducted the statistical analyses and wrote the article as the first author of this study. Wieke De Vente contributed to the statistical analyses, and reviewed the paper. Mirjana Majdandžić coded the observational data on behavioral inhibition tasks, and reviewed the paper and statistical analyses. Susan Bögels reviewed the paper and statistical analyses. Susan Bögels was the project leader of this study.

Chapter 5 is submitted as:

Aktar, E., Mandell, D. J., De Vente, W., Majdandžić, M., Oort, F. J., Van Renswoude, D., Raijmakers, M. E. J., & Bögels, S. M. (under review). Infants' fearful temperament and mothers' and fathers' anxiety symptoms predict infants' attention to facial expressions of emotion. *Journal of Abnormal Child Psychology*.

Contributions:

Evin Aktar designed this study, conducted the statistical analyses and wrote the article as the first author. Dorothy Mandell contributed to the design of the experiment, and to the statistical analyses, and reviewed the paper. Wieke De Vente and Mirjana Majdandžić contributed to the design of the experiment, reviewed the paper and the statistical analyses. Frans Oort contributed to the statistical analyses. Daan Van Renswoude computed the fixation data, and reviewed the paper. Maartje Raijmakers and Susan Bögels were the project leaders of this study, they contributed to the design of the experiment, reviewed the paper and statistical analyses.

Chapter 6 is submitted as:

Aktar, E., Mandell, D. J., De Vente, W., Majdandžić, Raijmakers, M. E. J., & Bögels, S. M. (under review). Infants' Temperament, and Mothers' and Fathers' Depression Predict Infants' Attention to Objects Paired with Emotional Faces. *Journal of Abnormal Child Psychology*.

Contributions:

Evin Aktar designed this study, conducted the statistical analyses and wrote the article as the first author. Dorothy Mandell contributed to the design of the experiment, reviewed the paper and statistical analyses. Wieke De Vente and Mirjana Majdandžić contributed to the design of the experiment, reviewed the paper and the statistical analyses. Maartje Raijmakers and Susan Bögels were the project leaders of this study, they contributed to the design of the experiments, reviewed the paper and statistical analyses.
