In the original manuscript, the middle panel of Figure 3 is accidentally identical to the middle panel of Figure 2. This erratum shows Figure 3 with the correct middle panel. Table 1 is unaffected, since it reports only experimental data. This change does not affect the scientific results of the paper.

Figure 3. Absorption spectra of tetracene as predicted with (a) SP15, (b) G09-anh, and (c) G09-h together with the measured spectrum.
