Investigating the Role of LRP1 in the Cerebral Vasculature

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor

aan de Universiteit van Amsterdam

op gezag van de Rector Magnificus

prof. dr. ir. P.P.C.C. Verbeek

ten overstaan van een door het College voor Promoties ingestelde commissie,

in het openbaar te verdedigen in de Agnietenkapel

op dinsdag 4 november 2025, te 13.00 uur

door Annemieke Rozeboom

geboren te Zutphen

Table of contents

Chapter 1	General introduction	8
Chapter 2	Cellular expression of low-density lipoprotein receptor-related protein 1 and amyloid beta deposition in human and rat epileptogenic brain	46
Chapter 3	Epileptiform activity in an inducible brain endothelial LRP1 knockout mouse model with and without elevated amyloid beta expression	78
Chapter 4	Cognitive impairment and neuropathology linked to epileptiform activity in an inducible brain endothelial LRP1 knockout in wild-type and 5x Familial Alzheimer Disease mouse model	104
Chapter 5	General discussion	134
	Summary	156
	Nederlandse samenvatting	158
	Acknowledgements	160
