*Received 2015 April 9; accepted 2015 April 21; published 2015 May 21*

The names of the pulsars in our publication were based on the position of the PALFA survey beam in which each pulsar was discovered rather than their refined, pulsar-timing measured positions, as they should have been. Their names thus do not correspond to their actual right ascensions and declinations. Their correct names are: PSR J0557+1550, PSR J1850+0242, PSR J1901+0300, PSR J1904+0451, and PSR J1943+2210. We are grateful to Dick Manchester for pointing out this oversight to us.
