Dedicated to my family

The studies described in this thesis were conducted at the Department of Periodontology of the Academic Centre for Dentistry Amsterdam (ACTA), the combined faculty of dentistry of the University of Amsterdam & VU University Amsterdam, The Netherlands. All studies presented in this thesis were supported by a grant from the University of Amsterdam for the focal point 'Oral infection and inflammation'. Two studies additionally received financial support from the Top Institute Food and Nutrition (TIFN), a public-private partnership in pre-competitive research.
