Institutional complexity and sustainable development in the EU electricity sector

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor

aan de Universiteit van Amsterdam

op gezag van de Rector Magnificus

prof. dr. D.C. van den Boom

ten overstaan van een door het College voor Promoties ingestelde

commissie,

in het openbaar te verdedigen in de Agnietenkapel

op dinsdag 5 juli 2016, te 14:00 uur

door Francesca Ciulli

geboren te Florence, Italië

Promotiecommissie:

Promotor(es): prof. dr. A. Kolk University of Amsterdam

Copromotor(es): dr. J.P. Lindeque University of Amsterdam

Overige leden: prof. dr. B.G.D. O'Dwyer University of Amsterdam
 prof. dr. R.C. Kloosterman University of Amsterdam
 prof. dr. J. Grin University of Amsterdam
 prof. dr. M.P. Hekkert Utrecht University
 prof. dr. J.M. Pinkse University of Manchester

Faculteit Economie en Bedrijfskunde

TABLE OF CONTENTS

List of figures	iv
List of tables	v
List of abbreviations and acronyms	vi
Chapter 1. Introduction	1
Chapter 2. The electricity sector and sustainable development: a literature review	9
2.1. Introduction	9
2.2. Methodology	10
2.3. General characteristics of the research published in main academic journals	12
2.3.1. Journal outlets	12
2.3.2. Chronology of research	13
2.3.3. Geographic focus	14
2.4. The contents of research on sustainability and the electricity sector: three lenses	18
2.4.1. Sustainable development issues	18
2.4.2. An industry emergence or system perspective to electricity generation	27
2.4.3. Electric incumbents' approaches to sustainable development	30
2.5. Discussion and Conclusion	43
Chapter 3. Review of research on institutions and the electricity sector	48
3.1. Introduction	48
3.2. Methodology	49
3.3. General characteristics of the research published in main academic journals	52
3.3.1. Journal outlets	52
3.3.2. Chronology of research	53
3.3.3. Geographic focus	54
3.4. The contents of research on institutions and the electricity sector: three lenses	56
3.4.1. Institutional actors	56
3.4.2. Institutional consequences	70
3.4.3. Institutional processes	76
3.5. Discussion and Conclusion	83

Chapter 4.	Multiple embeddedness and isomorphism: Multinationals' responses to deinstitutionalization after a disruptive event	87
4.1.	Introduction	87
4.2.	Multiple embeddedness and isomorphism	90
4.3.	Disruptive events, deinstitutionalization and isomorphism	91
4.4.	Deinstitutionalization and MNE-government relations	93
4.4.1.	Deinstitutionalization and the role of the government	93
4.4.2.	Deinstitutionalization and the role of the MNE	95
4.5.	Methodology	96
4.6.	Findings	103
4.6.1.	The French Nuclear Energy Organizational Field	104
4.6.2.	The German Nuclear Energy Organizational Field	108
4.6.3.	The United Kingdom Nuclear Energy Organizational Field	114
4.7.	Discussion	120
4.7.1.	Inter-country isomorphism	121
4.7.2.	Intra-country isomorphism	122
4.7.3.	Isomorphic agency	123
4.8.	Conclusion	125
Chapter 5.	On sustainability-related institutional complexity and strategic change: an exploration of the sustainable development logic	127
5.1.	Introduction	127
5.2.	Literature review	129
5.2.1.	A sustainable development logic	129
5.2.2.	Sustainable development-related institutional complexity	132
5.2.3.	External transformation, strategic change and sustainable development-related institutional complexity	134
5.3.	Methodology	135
5.3.1.	Case selection	135
5.3.2.	Data collection	137
5.3.3.	Data analysis	138
5.4.	Findings	139
5.4.1.	Period 1 (from 2000 to 2005)	141

5.4.2.	Period 2 (from 2006 to 2014)	146
5.4.3.	Period 3 (late 2014-ongoing)	156
5.5.	Discussion	159
5.5.1.	First stage	161
5.5.2.	Second stage	162
5.5.3.	Third stage	163
5.6.	Conclusions and implications	164
Chapter 6.	Interactions between state, market and sustainable development logics: institutional complexity in and across deregulating organizational fields	167
6.1.	Introduction	167
6.2.	Organizational fields, institutional logics and institutional complexity	168
6.3.	Deregulation and privatization: from the state to the market logic	171
6.4.	The electricity sector as illustrative context	173
6.5.	State-market-sustainable development logic configurations in an organizational field	175
6.6.	Theoretical perspectives on state-market-sustainable development configurations	180
6.6.1.	SOEs, deregulation and sustainable development	180
6.6.2.	Intra-institutional complexity of sustainable development in deregulating fields	181
6.6.3.	State-market-sustainable development logic configurations across organizational fields	185
6.7.	Conclusion	189
Chapter 7.	Conclusions	191
	References	201
	English Summary	219
	Nederlandse Samenvatting	224
	Acknowledgments	229

LIST OF FIGURES

Figure 2.1: Number of articles per journal outlet	13
Figure 2.2: Chronology of research	14
Figure 2.3: Geographic focus	15
Figure 2.4: Number of studies per sustainable development principle	19
Figure 3.1: Number of articles per journal outlet	52
Figure 3.2: Chronology of research	53
Figure 3.3: Geographic focus	54
Figure 4.1: Focal national nuclear energy organizational fields and embedded units of analysis	98
Figure 6.1: Intra- and inter-institutional complexity in a deregulating organizational field	183
Figure 6.2: State-market-sustainable development logic configurations across organizational fields	186

LIST OF TABLES

Table 2.1: Overview of the journal outlets and searched timeframe	11
Table 2.2: Sustainable development principles and issues addressed in the literature reviewed	20
Table 2.3: Tensions between sustainable development issues mentioned in the literature	25
Table 2.4: Overview of the literature adopting an industry emergence or system perspective to sustainability	28
Table 2.5: Drivers of electric incumbents' approaches to sustainable development	32
Table 3.1: Overview of the journal outlets and searched timeframe	50
Table 3.2: Overview of the literature on institutions and the electricity sector	57
Table 3.3: Government's institutional agency in the literature on institutions and the electricity sector	58
Table 3.4: Business' institutional agency in the literature on institutions and the electricity sector	62
Table 3.5: Civil society's institutional agency in the literature on institutions and the electricity sector	67
Table 3.6 : Institutional consequences of deregulation in the literature on institutions and the electricity sector	71
Table 3.7: Institutional change processes in the literature on institutions and the electricity sector	78
Table 4.1: Overview of data collection	100
Table 4.2: Focal firm characteristics and nuclear power capacity and generation fuel mix	102
Table 4.3: Nuclear energy – related strategic decisions taken between the Fukushima disaster and 31 December 2012	103
Table 4.4: Firms and government's key responses to (de)institutionalization in the French organizational field after Fukushima: Illustrative quotes	106
Table 4.5: Firms and government's key responses to (de)institutionalization in the German organizational field after Fukushima: Illustrative quotes	111
Table 4.6: Firms and government's key responses to (de)institutionalization in the UK organizational field after Fukushima: Illustrative quotes	117
Table 5.1: Components of a sustainable development logic	131
Table 5.2: Overview of data collection	138
Table 5.3: Keywords related to each SD sub-logic	139
Table 5.4: Overview of E.ON's adoption of SD logics in the three periods	140
Table 5.5: Illustrative quotations related to E.ON's adoption of the SD sub-logics in period 1	142
Table 5.6: Illustrative quotations related to E.ON's adoption of the SD sub-logics in period 2	149
Table 5.7: Illustrative quotations related to E.ON's adoption of the SD sub-logics in period 3	157
Table 5.8: Key components of firm responses to SD-related institutional complexity over time	160
Table 6.1: State-market-sustainable development logic configurations	176
