Contents

1 General introduction 1
  1.1 Introduction 2
  1.2 Discourse structure and prosodic aspects 3
  1.3 Research goals 4
  1.4 Outline of the thesis 6

2 The relation between textual information structure and perceived prominence in discourse 9
  2.1 Introduction 10
  2.2 Methods of discourse analysis 13
    2.2.1 Introduction 13
    2.2.2 Rhetorical Structure Theory 15
    2.2.3 Cognitive constraints of information flow 19
    2.2.4 Assumed Familiarity 20
    2.2.5 Summarizing remarks and proposed analysis 24
  2.3 Pilot experiment: Perceived prominence 27
    2.3.1 Spoken material and textual analyses 27
    2.3.2 Judging prominence 28
    2.3.3 Results 30
    2.3.4 Summarizing remarks 34
  2.4 Current framework: Information Structure In Discourse 35
  2.5 Conclusions 39

3 Prosodic speaker characteristics 41
  3.1 Introduction 42
  3.2 Speech material 42
  3.3 Temporal features 46
    3.3.1 Clause, sentence, and paragraph durations 46
    3.3.2 Speech tempo 47
  3.4 Pausal features 49
    3.4.1 Classification of pauses 49
    3.4.2 Acoustic measures 51
  3.5 Intonational features 53
    3.5.1 Stylization of contours 53
    3.5.2 Acoustic measures 54
  3.6 Perceptual evaluation 56
3.6.1 Introduction and methods 56
3.6.2 Overall judgement 57
3.6.3 Scale judgements and ideal speaker 58
3.6.4 Concluding remarks 61
3.7 Discussion and conclusions 62

4 Prosodic characteristics of discourse boundaries 67
4.1 Introduction 68
  4.1.1 Discourse boundaries 68
  4.1.2 Boundary marking pitch movements 69
  4.1.3 Pausing strategies 69
  4.1.4 Other prosodic-acoustic cues 70
  4.1.5 Research questions 71
4.2 Experimental design 73
  4.2.1 Speech material 73
  4.2.2 Discourse analysis 73
  4.2.3 Listening experiment 74
  4.2.4 Statistical analyses 75
4.3 Results of the listening experiment 75
  4.3.1 Listeners' judgements 75
  4.3.2 Agreement among listeners 75
  4.3.3 Perceived discourse boundaries 77
4.4 Results of the acoustic measurements 81
  4.4.1 Introduction 81
  4.4.2 Locating boundary marking pitch movements 81
  4.4.3 Measuring procedures 83
  4.4.4 Prosodic discourse boundaries 84
    4.4.4.1 Boundary tones 84
    4.4.4.2 Pausing 89
    4.4.4.3 Boundary tones and pausing 92
  4.4.5 Relation with perceptual judgements 98
    4.4.5.1 Boundary tones 99
    4.4.5.2 Pausing 100
    4.4.5.3 Boundary tones and pausing 102
4.5 Discussion and conclusions 109

5 Prosodic characteristics of focal structure 115
5.1 Introduction 116
  5.1.1 Information structure 116
  5.1.2 Accent lending pitch movements 116
  5.1.3 Other acoustic-prosodic cues 117
  5.1.4 Research questions 118
CONTENTS

5.2 Experimental design 120
   5.2.1 Speech material 120
   5.2.2 Discourse analysis 120
   5.2.3 Listening experiment 121
   5.2.4 Locating pitch accents 121
   5.2.5 Statistical analyses 121
5.3 Results on the judgements of perceived prominence 122
   5.3.1 Listeners' judgements 122
   5.3.2 Agreement among listeners 122
   5.3.3 Perceived prominence and information structure 123
5.4 Results on the location and realization of pitch accents 127
   5.4.1 Introduction 127
   5.4.2 Pitch accents and information structure 128
   5.4.3 Acoustic characteristics of pitch accents 131
   5.4.4 Prominent pitch accents 133
5.5 Internal pauses as markers of information structure 135
   5.5.1 Measuring procedures 135
   5.5.2 Distribution of clause internal pauses 136
   5.5.3 Clause internal pauses and information structure 138
5.6 Discussion and conclusions 141

6 General discussion 145
   6.1 Introduction 146
   6.2 Discussion of main findings 147
      6.2.1 Prosodic speaker characteristics 148
      6.2.2 Prosodic characteristics of discourse boundaries 149
      6.2.3 Prosodic characteristics of focal structure 151
   6.3 Prosodic aspects of information structure in discourse 153
   6.4 Limitations and suggestions 157

Appendix A Original Dutch text 161
Appendix B English translation 163
Appendix C Semantic scales 165
Appendix D Discourse boundaries 169
