1 THE ROLE OF LANGUAGE INPUT IN ACQUISITION THEORIES 1

1.1 Introduction 1  
1.2 Input and interaction in theories of language acquisition 2  
1.3 Quantity and quality of input 4  
  1.3.1 Quantity of language input 4  
  1.3.2 Quality of language input 8  
1.4 Input in the bilingual situation 11  
  1.4.1 Quantity and quality of bilingual input 12  
  1.4.2 Language input and separation of languages 13  
1.5 Summary 15

2 LANGUAGE IN DEAF FAMILIES 17

2.1 What is a deaf family? 17  
2.2 Language input in deaf families 19  
  2.2.1 The problem of multilingual input 19  
  2.2.2 Deaf parents with deaf children (DPDC) 23  
  2.2.3 Deaf parents with hearing children (DPHC) 26  
2.3 Language production of children in deaf families 27  
  2.3.1 Language production of deaf children of deaf parents 27  
  2.3.2 Language production of hearing children of deaf parents 30  
2.4 Summary 31

3 RESEARCH QUESTIONS 35

3.1 Quantity of input and language choice 35  
3.2 Language accessibility 36  
3.3 Lexical issues 38  
3.4 Functional aspects 38  
3.5 Structural aspects 39
# Table of contents

## 4 General Design

4.1 Subjects
   4.1.1 The deaf children 41
   4.1.2 The hearing children 43

4.2 Data collection 44
4.3 Data selection 45
4.4 Transcription
   4.4.1 The transcription form 46
   4.4.2 Segmentation 50
   4.4.3 Interrater reliability for transcription and segmentation 52
4.5 Handling the data 55

## 5 Quantity of Language and Language Choice

5.1 Quantity of input and output 57
   5.1.1 Vocalizations and Movements in the input 57
   5.1.2 Types of prelinguistic utterances of the children 58
   5.1.3 Quantity of linguistic input and output 60

5.2 Relation between quantity of input and quantity of output 63

5.3 Language choice of the mothers and children
   5.3.1 Language choice of the mothers 66
   5.3.2 Language choice of the children 67

5.4 Summary 70

## 6 Language Accessibility

6.1 Input and accessibility 73
   6.1.1 Accessibility of the input to the children 77
   6.1.2 Strategies for attention used by the deaf mothers 80
   6.1.3 Relationship between strategies for attention and consecutive language input 83
   6.1.4 Relationship strategies for attention and attention-giving behavior of the children 84

6.2 Output and accessibility 89
   6.2.1 Accessibility of the output to the mothers 89
   6.2.2 Checking for accessibility 92
   6.2.3 Use of voice by the deaf and hearing children 96

6.3 Propositions in two channels 98
   6.3.1 Propositions in the input 98
   6.3.2 Propositions in the output 103

6.4 Relation between quantity of input and attention-giving development of the children 105

6.5 Summary 107
Table of contents vii

7 LEXICAL ISSUES IN INPUT AND OUTPUT 109

7.1 Deictic and representational symbols 109
  7.1.1 Deictic and representational symbols in the input 109
  7.1.2 The children: from prelinguistic to linguistic symbols 114
  7.1.3 Deictic and representational symbols in the output 116
7.2 Verbs and nouns 120
  7.2.1 Nouns versus verbs in the input 120
  7.2.2 Nouns versus verbs in the output 122
7.3 Variability in signed and spoken 123
  7.3.1 Variability in the input 125
  7.3.2 Variability in the output 128
7.4 Lexical equivalence in input and output 134
  7.4.1 Lexical equivalence in the input 134
  7.4.2 Lexical equivalence in the output 138
7.5 Summary 139

8 FORMAL AND FUNCTIONAL ASPECTS IN INPUT AND OUTPUT 143

8.1 Forms and functions in SLN, NL and SC 143
8.2 Declaratives, interrogatives and imperatives 145
  8.2.1 Declarative, interrogative and imperative input 145
  8.2.2 Declarative, interrogative and imperative output 155
8.3 Affective propositions 162
8.4 Functional evidence for separation SLN, NL and SC in the input 163
8.5 Summary 164

9 STRUCTURAL ASPECTS IN THE INPUT AND THE OUTPUT 167

9.1 MLU and MLUL10 167
  9.1.1 MLU's in the input 167
  9.1.2 MLU's in the output 173
9.2 Realization of verbs 179
  9.2.1 Presence of verbs in the input 181
  9.2.2 Presence of verbs in the output 186
9.3 Realization of arguments 190
  9.3.1 Realization of arguments in the input 192
  9.3.2 Realization of arguments in the output 196
9.4 Position of verbs 198
  9.4.1 Verb positions in the input 200
  9.4.2 Verb positions in the output 205
9.5 Verb inflection 209
### Table of Contents

9.5.1 Verb inflection in the input  
9.5.2 Verb inflection in the output  
9.6 Use of sentence and morphological marking  
9.6.1 Morphological markers in the input  
9.6.2 Morphological markers in the output  
9.7 Use of different sign and word types  
9.7.1 Different sign/word types in the input  
9.7.2 Different sign/word types in the output  
9.8 Summary

10 DISCUSSION AND CONCLUSIONS

10.1 The status of Simultaneous Communication (SC)  
10.2 Input and output  
10.2.1 Quantitative influences of input on output  
10.2.2 Qualitative influences of input on output  
10.2.3 Output is different from input  
10.2.4 Input as one of several factors  
10.3 The influence of hearing status

10.4 Implications for parents

10.5 Further research

Appendix to chapter 4  
Appendix to chapter 5  
Appendix to chapter 6  
Appendix to chapter 7  
Appendix to chapter 8  
Appendix to chapter 9
