The background of the cover is a repeating pattern of molecular structures. It features a grid of small, light blue spheres (likely representing carbon atoms) connected by thin lines. Interspersed within this grid are larger, more complex molecular models. These models consist of a central ring of blue spheres, with various other spheres (white, orange, and dark blue) attached to it, representing different functional groups or substituents. The overall effect is a dense, scientific, and textured background.
