Acknowledgements

I would like to thank everybody who in any way has contributed to this thesis. Especially I would like to thank Professor Lucas Reijnders my promotor for his effort, encouragement, advice and all the stimulating conversations.

Furthermore I like to acknowledge all contributing companies for their effort and time given, without their help this thesis would be impossible.

For a promotion you need a subject, a promotor and an initiator, Tjeerd thank you for that part. What also stimulates writing a thesis nowadays is a computer and equipment in optimal condition, Michel, Marielle and Jack thanks. Marielle also thanks for your literature search and work on toxicology.

For reading articles, comment and help I would like to thank Marja Maclaine Pont, Gerard Zwetsloot and Hein Falke. Marja also thanks for your advice and help on the toxicological part.

Roger, thanks for the correction of the English of this thesis.

Finally Stephanie thank you for the graphic design.
