Disclaimer/Complaints regulations
If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: http://uba.uva.nl/en/contact, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.
## Contents

1 Introduction .......................... 1
   1.1 Cooperative Problem Solving .................. 2
   1.2 Overview .............................. 5
   1.3 Statistical Expert Systems ................ 6

I Automating Consultation ................. 8

2 StatCons-0: Exploring Methodological Design of Support .......... 9
   2.1 Early KADS ............................ 10
   2.2 Knowledge Acquisition for StatCons-0 .... 13
      2.2.1 Task Analysis ...................... 13
      2.2.2 Analysis of Domain Concepts ......... 22
      2.2.3 Analysis of Expertise in Action .... 24
   2.3 The StatCons-0 Prototype ................. 25
   2.4 Conclusions StatCons-0 .................. 33

3 Well-Defined Models of Data Sets ............. 37
   3.1 Models .................................. 40
   3.2 The Data Set ............................ 41
   3.3 Well-Defined Models of a Central Data Set .......... 43
      3.3.1 Structure-Preserving Functions .... 46
   3.4 Interrelationships Among Models .......... 48
   3.5 Extending the Elementary Datum ............ 53
      3.5.1 Time ................................ 53
      3.5.2 Operationalization ................. 55
      3.5.3 Well-Defined Models for the Process Structure .. 57
   3.6 Conclusion ............................. 59

4 StatCons-1: Highly Flexible Support .......... 63
   4.1 A Propose-Revise Model for Design Tasks .............. 65
   4.2 Well-defined Models in Iterative Statistical Design .. 68
      4.2.1 Selected WDMs ..................... 70
      4.2.2 Requirements ..................... 73
      4.2.3 Design Solution .................... 77
   4.3 The StatCons-1 prototype .................. 81
   4.4 Conclusions of the StatCons Case Study ............ 85
