Breaking down ALD

Investigating pathomechanisms using hiPSC-derived CNS models

Roberto Montoro Ferrer

The research described in this thesis was carried out in the Stem Cell Lab at the Department of Complex Traits Genetics, Amsterdam University Medical Center, Amsterdam, The Netherlands

The research was financially supported by grants from the European Leukodystrophy Association (ELA International), grant number: 2019-020C2 (to SK and VH), Stichting Metakids, grant number: 2023-102 (to SK and VH), the Netherlands Organization for Scientific Research (NWO) (VIDI 016.196.310) (to ME), and Amsterdam UMC (FlexOIO) (to ME).

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. ir. P.P.C.C. Verbeek
ten overstaan van een door het College voor Promoties ingestelde commissie,
in het openbaar te verdedigen in de Agnietenkapel
op vrijdag 12 juni 2026, te 10.00 uur

door Roberto Montoro Ferrer
geboren te Valencia

Promotiecommissie

Promotores:	prof. dr. S. Kemp	AMC-UvA
	prof. dr. V.M. Heine	Vrije Universiteit Amsterdam
Copromotores:	dr. M. Engelen	AMC-UvA
Overige leden:	prof. dr. C.D.M. van Karnebeek	AMC-UvA
	dr. D.L.C. van den Berg	Erasmus Universiteit Rotterdam
	prof. dr. R.H.L. Houtkooper	AMC-UvA
	dr. M. Bugiani	Vrije Universiteit Amsterdam
	prof. dr. I. Huitinga	Universiteit van Amsterdam
	prof. dr. M.C. Schut	Vrije Universiteit Amsterdam

Faculteit der Geneeskunde

TABLE OF CONTENTS

Chapter 1	General introduction	8
Chapter 2	Evolution of adrenoleukodystrophy model systems	24
Chapter 3	Altered lipid profile and reduced neuronal support in human induced pluripotent stem cell-derived astrocytes from adrenoleukodystrophy patients	44
Chapter 4	Evolution of the lipidome uncovers early changes in Adrenoleukodystrophy human cortical and spinal organoids	82
Chapter 5	Pathways to pathogenesis: insights from transcriptomics and proteomics of ALD cortical and spinal cord organoids	145
Chapter 6	*In vivo* selection in non-human primates identifies AAV capsids for on-target CSF delivery to spinal cord – implications for ALD	176
Chapter 7	General discussion	188
Appendix	English summary	208
	Dutch summary	210
	Author contributions	212
	PhD portfolio	214
	Acknowledgements	216
