The research described in this thesis was carried out at the Adolescent Clinic of the Department of Psychiatry and the Clinical Neurophysiology Unit of the Department of Neurology, Academic Medical Center, University of Amsterdam, the Netherlands. The studies were financially supported by grant 28-1241/2 from the Dutch Health Research and Development Council.
There was a time that music flowed
Like a dark volcanic wine
Through the cool and caverny recesses
And crypts of my secret soul-
Then over earth and over sky
A distant thunder rolled,
And finned thoughts flashed through that stream,
Weird fish that darted blind-
And in the cavern of my mind
An awful night held sway,
The entrance blocked with giant pines
With all their roots uptorn
