Table of Contents

Chapter I: Laying the Groundwork

I. Introduction ................................................................. 1
II. Strategic Marketing Management & Higher Educational Institutions .......... 3
   II.2. Marketing Definition ............................................. 4
      II.2.1 Marketing as the Philosophy ................................ 4
      II.2.2 Marketing as the Strategy & Tactics ...................... 6
      II.2.3 Marketing as the Methodology ............................ 7
   II.3. Is Marketing Relevant to Higher Educational Institutions? .......... 8
      II.4.1. Development in the US ..................................... 9
      II.4.2. Development in The Netherlands .......................... 11
III. TQM & Higher Educational Institutions ...................................... 12
   III.1. Quality Concept Evolution ..................................... 12
   III.2. TQM Definition ................................................. 14
      III.2.1 TQM as the Philosophy .................................. 14
      III.2.2 TQM as the Business Strategy ......................... 15
      III.2.3 TQM as the Management Methodology .................. 19
   III.3. Is TQM Relevant to Higher Educational Institutions? .......... 20
   III.4. To What Extent Has the Concept of TQM Been Utilized in Higher Educational Institutions? ............................ 22
IV. A Strategic Paradigm: Linking Strategic Marketing Management & TQM in Higher Educational Institutions ................................................. 24
   IV.1. Marketing & TQM Compliment Each Other ........................ 24
   IV.2. A Brief Description of the Proposed Model ..................... 26
   IV.3. Advantages of Using the Proposed Model ........................ 28
Chapter II: Research Objectives & Questions

I. Research Objectives .......................................................... 33
II. Research Questions ............................................................. 34
   II.1. Questions Formulation ..................................................... 34
   II.2. Literature Review on Student Education, Communications, & Information Needs ......................................................... 36
III. Student Needs & Decision Model Development ............................................................. 38
   III.1. The Concept of Need ...................................................... 38
   III.2. The Prevailing Theories on Consumer Decision-Making Process ............................................................. 39
   III.3. Student Decision Model ................................................... 42
      III.3.1 Purpose ................................................................. 42
      III.3.2 Components of the Model ........................................... 42
      III.3.3 Research Questions & Student Decision Stages .................. 45
IV. Industry Needs ............................................................... 46
   IV.1. Are There Different Management Needs for Different Industries? ............................................................. 46
   IV.2. The Future Manager Profile .............................................. 47
V. Are Higher Educational Institutions Able to Meet Student Educational Needs ............................. 50
   V.1. Reasons for Not Being Able to Meet Student Needs ...................... 50
   V.2. Educational Institutions & Student Educational Needs? ................ 51

Chapter III: Research Methodology

I. Identifying Student Needs ...................................................... 54
   I.1. Exploratory Focus Group .................................................. 54
   I.2. The Measurement Process ................................................ 57
### Table of Contents

1.3. The Process of Designing the Student Questionnaire ........................................ 61  
1.4. Developing A Sampling Plan ............................................................................. 64  

II. Student Needs & Higher Educational Institutions ............................................... 67  
II.1. The Process of Designing the Questionnaire for Education Administrators ................................. 67  
II.2. Developing A Sampling Plan ............................................................................. 68  

**Chapter IV: Research Findings**

I. Sampling ............................................................................................................. 71  
I.1. Student Sample ............................................................................................... 71  
I.2. Education Administrator Sample ...................................................................... 73  

II. Data Analysis .................................................................................................. 73  
II.1. Statistical Techniques and Justifications ......................................................... 73  
II.2. Research Findings & Statistical Presentation .................................................. 77  
II.3. Research Findings: Broad Education & Education-Related Needs (BEN) .................. 78  
II.3.1. Student Survey ............................................................................................ 78  
   1. BEN: Ranking, Frequency, Mean, & Percentile of Attributes by Total Sample .................. 79  
   2. BEN: Factor Analysis ...................................................................................... 80  
   3. BEN: Scale Reliability Analysis & Scale Importance Ranking ......................... 83  
   4. BEN: Ranking, Mean, & Percentile by Total Sample & Each Educational Institution .... 84  
   5. BEN: Scales Comparison of Subgroups with One-Way ANOVA ....................... 87  
II.3.2. BEN: Ranking, Percentile, & T-Test Comparisons between Education Administrator & Student Surveys .............................. 91  

II.4. Research Findings: Specific Education & Education-Related Needs (SEN) .................. 95  
II.4.1. Student Survey ............................................................................................ 94
### Table of Contents

#### II.7. Research Findings: How Did the Education Administrators Rate the Effectiveness of Marketing & TQM Applications in Higher Educational Institutions? ........................................... 127

#### II.8. Research Findings: If Students Could Finish Their Study Six Months to One Year Faster Without Compromising the Quality of Their Education, Would They Do It? ........................................... 129

#### III. Summary & Conclusions ........................................... 129

   III.1. Summary ........................................... 129
   III.2. Conclusions ........................................... 132
      III.2.1. General Remarks ........................................... 132
      III.2.2. Specifics ........................................... 134
      III.2.3. Research Data Applicability ........................................... 138

#### Chapter V: Theoretical Framework & Development I - Organization External Issues

   I. Orientation ........................................... 142
      I.1. The Model Provides Logical Thinking & Helps to Overcome Emotional Barriers ........................................... 142
      I.2. The Model Establishes A set of Theoretical Guidelines ........................................... 143
   II. Macro Environment ........................................... 144
      II.1. Megatrends in Education ........................................... 145
      II.2. Political Environment: Demand & Restrictions ........................................... 146
      II.3. Environmental Audit ........................................... 149
   III. Market Environment ........................................... 150
      III.1. Clients ........................................... 150
      III.2. Competition ........................................... 150
         III.2.1. Levels of Competition ........................................... 150
         III.2.2. Assessing Competitors ........................................... 153
      III.3. Competitive Advantage — The Higher Educational Institution As A Competitor in the Student Market ........................................... 156
III.3.1. Elements of Competitive Advantage ........................................ 156

IV. Targeting & Positioning Strategy ..................................................... 158
IV.1. Segmentation & Targeting ............................................................. 158
IV.2. Positioning ..................................................................................... 160

Chapter VI: Theoretical Framework & Development II -
Organization Internal Issues

I. Orientation ......................................................................................... 162
II. Organization Internal Environment .................................................. 163
II.1. Internal Driving Forces ................................................................. 163
II.2. Organization Culture ................................................................. 163
II.2.1. National Culture ................................................................. 164
II.2.2. Student Subculture ............................................................... 165
II.2.3. How Is Organization Culture Developed? .................................. 166
II.2.4. What Can be Done if the Organization Culture Is
       Dysfunctional or Even Destructive? ............................................... 167

III. Organization Internal Strategic Issues ............................................. 170
III.1. Philosophy, Mission, & Goals ...................................................... 171
III.2. Academic Standards & Education Quality .................................... 174
III.2.1. How to Set the Appropriate Level of Academic Standards? ...... 174

IV. Designing Institution Offer ............................................................... 176
V. Integrated Marketing Communications or IMC ............................... 180
V.1. What Does IMC Integrate? ............................................................ 180
V.2. Designing the Communications Plan .............................................. 181

Chapter VII: Theoretical Framework & Development III -
Organization Internal Issues

I. Orientation ......................................................................................... 186
Chapter VII: Theoretical Framework & Development III - Organization Internal Issues

I. Orientation .................................................................................................................. 186

II. Organization Development & Management System .................................................. 187
   II.1. Leadership.......................................................................................................... 188
   II.2. Staffing for Excellence ....................................................................................... 190
   II.3. Performance Management ................................................................................. 191
       II.3.1. Manage Performance by Utilizing the Appropriate Intrinsic and Extrinsic Rewards ................................................................. 192
       II.3.2. Manage Performance by Recognizing that There Are Three Types of Workers ................................................................. 193
       II.3.3. Manage Performance by Using Performance Evaluation ....................... 195
   II.3 Organization Design ............................................................................................ 196
       II.3.1. Professional Bureaucracy ........................................................................ 196
       II.3.2. The Inverted Pyramid .............................................................................. 197

III. Evaluation & Control ................................................................................................. 197

Chapter VIII: Assumptions & Limitations

I. Assumptions & Limitations ......................................................................................... 201

II. Suggestions for Future Research ............................................................................. 202

Chapter IX: Summary & Conclusions

I. Summary ..................................................................................................................... 204

II. Conclusions ............................................................................................................... 206
