ESSAYS ON CORPORATE FINANCE AND FINANCIAL INTERMEDIATION

TABLE OF CONTENTS

Chapter 1: Introduction and Outline of Dissertation
1.1 Introduction and Motivation ............................................. 2
1.2 Approach and Background .............................................. 6
1.3 Outline of the Dissertation ........................................... 9
1.4 Concluding Remarks .................................................. 14

Chapter 2: Information Asymmetry in Financial Markets: Implications for Financial Contracting and the Firm’s Funding Source Choice
2.1 Introduction .................................................................. 16
2.2 Asymmetric Information, Investment Incentives and Market Failure in Debt and Equity Markets ................................................. 18
2.3 Solutions to Informational Problems: Financial Contracting ......... 25
  2.3.1 Solutions to Adverse Selection ....................................... 25
  2.3.2 Solutions to Moral Hazard ........................................... 30
2.4 Solutions to Informational Problems: The Firm’s Funding Source Choice .................................................. 37
  2.4.1 Bank Financing ..................................................... 38
  2.4.2 Financial Market Financing .......................................... 48
  2.4.3 Venture Capital Financing ........................................... 54
2.5 Concluding Remarks .................................................. 56

Chapter 3: Discretion in Bank Contracts and the Firm’s Funding Source Choice between Bank and Financial Market Financing
3.1 Introduction .................................................................. 60
3.2 Related Literature ....................................................... 64
3.3 The Basic Model ......................................................... 67
  3.3.1 Production Possibilities for Firms ................................. 67
  3.3.2 Information Structure, Types of Contracts and Funding Sources .................................................. 68
  3.3.3 Sequence of Events in Lender-Borrower Interaction .......... 70
3.4 Model Analysis .......................................................... 71
  3.4.1 Determination of Interest Rates ....................................... 71
  3.4.2 The Borrower’s Choice of Contract Type and Funding Source .................................................. 78
3.4.3 Discussion .................................................. 88
3.4.4 A Numerical Example ...................................... 89

3.5 Model Extensions and Further Analysis ....................... 91
3.5.1 Ex Ante Investment Incentives, Project Types and the Borrower’s Contract Choice ................................................. 92
3.5.2 Long-Term versus Short-Term Contracts ..................... 94
3.5.3 Information Production in Financial Markets and Reputation Formation ......................................................... 96
3.5.4 Implications for Comparative Financial Systems ............ 98
3.5.5 Application to Bank Contracts: Loan Commitments .......... 100

3.6 Conclusions .................................................... 101

Appendix:
A.1 Proofs of Propositions ......................................... 102

Chapter 4: Market Discipline and Incentive Problems in Conglomerate Banks
4.1 Introduction .................................................... 118
4.2 General Framework and Intuition ................................ 121
4.3 The Model: Setup and Analysis ................................ 123
  4.3.1 Specification .................................................. 123
  4.3.2 Analysis ....................................................... 126
  4.3.3 A Numerical Example ....................................... 135
  4.3.4 Discussion ..................................................... 135
4.4 Internal Allocation of Cost of Capital and Incentive Contracting Issues ...................................................... 137
  4.4.1 Internal Allocation of Cost of Capital ....................... 137
  4.4.2 Incentive Contracting Issues ................................. 140
4.5 Proprietary Trading versus Relationship Banking ............ 143
  4.5.1 Introduction .................................................... 143
  4.5.2 Specification and Analysis ................................... 144
4.6 Further Implications and Empirical Evidence ................. 147
  4.6.1 The Diversification Discount ................................ 147
  4.6.2 Conglomeration in Developed and Developing Economies .......... 149
  4.6.3 Applications to Corporations: Spinoffs and Equity Carve-Outs ............................................................. 150
4.7 Conclusions .................................................... 151

Appendix:
A.1 Proofs of Propositions ......................................... 152
