# Table of contents

**CHAPTER 1** General introduction

**CHAPTER 2** Circadian rhythmicity of vasopressin levels in the cerebrospinal fluid of suprachiasmatic nucleus-lesioned and -grafted rats

*K.E. van Esseveldt, B.A.M. van de Geest, H. Duindam, W.J. Rietveld and G.J. Boer*

**CHAPTER 3** Vasopressin-deficient suprachiasmatic nucleus grafts reinstate circadian rhythmicity in SCN-lesioned arhythmic rats

*G.J. Boer, K.E. van Esseveldt, B.A.M. van der Geest, H. Duindam and W.J. Rietveld*

*Neuroscience* 89 (1999) 375-385

**CHAPTER 4** Adenoviral vector-mediated gene transfer and neurotransplantation: possibilities and limitations in grafting of the fetal rat suprachiasmatic nucleus

*K.E. van Esseveldt, R. Liu, W.T.J.M.C. Hermens, J. Verhaagen and G.J. Boer*

*Journal of Neuroscience Methods* 71 (1997) 113-123

**CHAPTER 5** Long-term transgene expression in fetal rat suprachiasmatic nucleus neurografts following *ex vivo* adenoviral-mediated gene transfer

*G.J. Boer, K.E. van Esseveldt, W.T.J.M.C. Hermens, R. Liu and J. Verhaagen*

*Experimental Neurology* 145 (1997) 536-545

**CHAPTER 6** Transgene expression in rat fetal brain grafts is maintained for 7 months after *ex vivo* adenoviral vector-mediated gene transfer

*K.E. van Esseveldt, W.T.J.M.C. Hermens, J. Verhaagen and G.J. Boer*

*Neuroscience Letters* 240 (1998) 116-120
Table of contents

CHAPTER 7 Ontogeny of neurotrophin receptor trkC expression in the rat forebrain and anterior hypothalamus with emphasis on the suprachiasmatic nucleus
G.C. Hassink, K.E. van Esseveldt, P.A. Dijkhuizen, J. Verhaagen and G.J. Boer
Neuroscience, in press

CHAPTER 8 Adenoviral vector-mediated expression of neurotrophin-3 increases the number of vasopressinergic and vasoactive intestinal polypeptidergic neurons in suprachiasmatic nucleus grafts
Submitted

CHAPTER 9 Effect of adenoviral vector-mediated expression of neurotrophin-3 in suprachiasmatic nucleus transplants on restoration of circadian rhythmicity; preliminary results
K.E. van Esseveldt, P.A. Dijkhuizen, J. Verhaagen and G.J. Boer

CHAPTER 10 General discussion
