Citation for published version (APA):

van Kempen, A. A. M. W. (2004). *Glyconeogenesis and glycogenolysis in newborn infants*. [Thesis, fully internal, Universiteit van Amsterdam].

General rights

It is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), other than for strictly personal, individual use, unless the work is under an open content license (like Creative Commons).

Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Contents

| | | |
|------------------|---|-----|
| Chapter 1 | Introduction | 9 |
| Chapter 2 | Adaptation of glucose production and gluconeogenesis to diminishing glucose infusion in preterm infants at varying gestational ages. <i>Pediatric Research 2003;53:628-634</i> | 53 |
| Chapter 3 | Differences in gluconeogenesis and glycogenolysis in response to a decline in exogenous glucose in appropriate and small for gestational age term infants. <i>Submitted</i> | 69 |
| Chapter 4 | The rate of gluconeogenesis in newborn infants depends on FFA and gestational age, but not on birth weight. <i>Submitted</i> | 85 |
| Chapter 5 | Glucose production in response to glucagon is comparable in preterm AGA and SGA infants. <i>Submitted</i> | 101 |
| Chapter 6 | Alanine administration does not stimulate gluconeogenesis in preterm infants. <i>Metabolism 2003;52:945-949</i> | 117 |
| Chapter 7 | Stimulation of gluconeogenesis by intravenous lipids is mediated by FFA in preterm infants. <i>Submitted</i> | 129 |
| Chapter 8 | General discussion | 145 |
| Chapter 9 | Summary | 157 |
| | Samenvatting | 163 |
| Dankwoord | | 167 |
| Curriculum Vitae | | 173 |
