#### **Disclaimer/Complaints regulations**

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

## Contents

Voorwoord-----	5
1. Introduction-----	7
<b>Part I: Measuring and modeling the interactions between metals and dissolved organic matter in acidic soil solutions</b>	
2. Comparison of diffusive gradients in thin films and equilibrium dialysis for the determination of Al, Fe(III) and Zn complexed with dissolved organic matter -----	19
3. Influence of pH and metal/carbon ratios on soluble organic complexation of Fe(II), Fe(III) and Al in soil solutions determined by diffusive gradients in thin films -----	37
4. Organic complexation of Al and Fe in acidic soil solutions: A comparison of DGT analyses with Model V and VI predictions -----	57
<b>Part II: The implications of interactions of Al, Fe and organic matter for their mobility in acidic sandy soils</b>	
5. Mobility of Fe(II), Fe(III) and Al in acidic forest soils mediated by dissolved organic matter: influence of solution pH and metal/organic carbon ratios -----	79
6. Mobilization of organic matter, Al and Fe in eluvial podzol horizons as affected by complexation and interactions with solid soil material -----	101
7. Mechanisms controlling the mobility of dissolved organic matter, Al and Fe in podzol B horizons -----	123
8. Synthesis-----	151
Summary -----	159
Samenvatting-----	167
References-----	175
Appendix -----	185
Curriculum Vitae -----	187
