G. van Andel, K.H. Kurth.
Quality of life in prostate cancer; preliminary results of two studies in patients with extensive disease.

Quality of life assessment in patients with relapsed hormone resistant prostate cancer (HRCP) treated with Ramba (R) or Ramba plus prednisone (R+P). *European Urology* 1999. 35 (suppl 2), 188.

G. van Andel, K.H. Kurth.

G. van Andel, A.P. Visser.
The influence of psychosocial factors on the measured quality of life in patients suffering from benign prostate hyperplasia (BPH) and prostate cancer. *J Urology*. 2000, 163 (4):1255

Quality of life (QOL) in prostate cancer patients treated with radical prostatectomy or external radiation therapy: baseline profile, the impact of treatment and a comparison with a cohort of healthy men. *J Urology* 2002. 167 (4), 1378.

G. van Andel, A.P. Visser , M.C.C.M. Hulshof, S. Horenblas, K.H. Kurth.
The role of psychosocial factors in the assessment of health related quality of life. *Psychooncology* (submitted)
G. van Andel, M.C.C.M. Hulshof, A.P. Visser, S. Horenblas, K.H. Kurth.
Health related quality of life and psychosocial factors in patients with localised prostate cancer scheduled for radical prostatectomy or external radiation therapy. BJU Int (accepted)

G. van Andel, M.C.C.M. Hulshof, A.P. Visser, S. Horenblas, K.H. Kurth.
A prospective longitudinal study comparing the impact of radical prostatectomy with external radiation therapy on health related quality of life in men with localised prostate cancer. Prostate (submitted)

G. van Andel, K.H. Kurth.
The impact of androgen deprivation therapy on Health Related Quality of life in asymptomatic men with lymphnode positive prostate cancer. European Urology (accepted)

F. Efficace, A. Bottomley, G. van Andel.
Health Related Quality of Life in Prostate Cancer Patients: A Systematic Review about the quality of the HRQOL research in Randomized Controlled Trials. Cancer 2003;97:377-88

A randomized study comparing Epirubicin in a 4 weekly versus a weekly intravenous regimen in patients with metastatic hormone resistant prostate carcinoma: the effects on health related quality of life. World J Urology (accepted).

Quality of life at baseline: a prognostic factor for survival in hormone refractory prostate cancer? J Clinical Oncology (submitted)

Names and institutes of the (co)authors involved in the above-mentioned publications/abstracts, in alphabetical order

Prof dr W.Albrecht
Department of Urology, Krankenanstalt Rudolfstiftung, Vienna, Austria.

Dr A. Bottomley
Quality of Life Unit, European Organisation for Research and Treatment of Cancer, Brussels, Belgium.

Dr M.J.F.M. de Bruin
Departments of Urology and Oncology, Laurentius Hospital, Roermond, The Netherlands.

Prof Dr F.M.J. Debruyne
Department of Urology, Academic Hospital Nijmegen, Nijmegen, The Netherlands.

C.T.M. Caris
Curatrical SMO & Research, Nijmegen, The Netherlands.

Dr P. Carpentier
Department of Urology, Onze Lieve Vrouwe Gasthuis, Aalst, Belgium.

Dr L. Collette
Datacentre, Department of Statistics, European Organisation for Research and Treatment of Cancer, Brussels, Belgium.

F. Efficace
Quality of Life Unit, European Organisation for Research and Treatment of Cancer, Brussels, Belgium.

P. Fernandez de Moral
Curatrical SMO & Research, Nijmegen, The Netherlands.

Prof dr S.D. Fossa
Department of Radiotherapy, The Norwegian Radium Hospital, Montobello, Oslo, Norway.

Prof dr J.C.J.M. de Haes
Department of Psychology, Academic Medical Centre, University of Amsterdam, Amsterdam, The Netherlands.

Prof dr S. Horenblas
Department of Urology, Antoni van Leeuwenhoekziekenhuis, Nederlands Kanker Instituut, Amsterdam, The Netherlands.
Dr M.C.C.M. Hulshof  
Department of Radiotherapy, Academic Medical Centre, University of Amsterdam, Amsterdam, The Netherlands.

Dr H.F.M. Karthaus.  
Department of Urology, Canisius Wilhelmina Hospital, Nijmegen, The Netherlands.

Prof dr K.H. Kurth.  
Department of Urology, Academic Medical Centre, University of Amsterdam, Amsterdam, the Netherlands.
