ILLC Dissertation Series

ILLC DS-2000-02: Jaap Kamps. A Logical Approach to Computational Theory Building (with applications to sociology).
ILLC DS-2000-05: Carlos Areces. Logic Engineering. The Case of Description and Hybrid Logics.
ILLC DS-2000-06: **Hans van Ditmarsch.** Knowledge Games.

ILLC DS-2000-07: **Egbert L.J. Fortuin.** Polysemy or monosemy: Interpretation of the imperative and the dative-infinitive construction in Russian.

ILLC DS-2001-01: **Maria Aloni.** Quantification under Conceptual Covers.

ILLC DS-2001-02: **Alexander van den Bosch.** Rationality in Discovery - a study of Logic, Cognition, Computation and Neuropharmacology.

ILLC DS-2001-04: **Rosalie Iemhoff.** Provability Logic and Admissible Rules.

ILLC DS-2001-05: **Eva Hoogland.** Definability and Interpolation: Model-theoretic investigations.

ILLC DS-2001-07: **Katsumi Sasaki.** Logics and Provability.

ILLC DS-2001-08: **Allard Tamminga.** Belief Dynamics. (Epistemo)logical Investigations.

ILLC DS-2001-10: **Marc Pauly.** Logic for Social Software.

ILLC DS-2002-01: **Nikos Massios.** Decision-Theoretic Robotic Surveillance.

ILLC DS-2002-03: **Yuri Engelhardt.** The Language of Graphics.
