Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <http://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

This study presents a framework for the analysis of the visual language of graphic representations. Diagrams, maps, charts and symbols, from ancient inscriptions to computer visualizations, are examined with respect to visual grammar and principles of interpretation. The issues explored include the different roles that a graphic constituent may play within a representation, the nesting of graphic structures and the nature of meaningful space.
