**Collective action in the distribution of agricultural input services in the Couffo Region**

5.1 Performance of collective action in the distribution of agricultural input services  
5.1.1 Farmers' participation in the groupement villageois (GVs)  
5.1.2 Farmers' purchases of agricultural inputs  
5.1.3 Farmers' participation and cotton output  
5.2 An analysis of Strengths, Weaknesses, Opportunities and Threats (SWOT) of collective action in the distribution of the agricultural input services  
5.2.1 Strengths and weaknesses of the distribution of agricultural input services  
5.2.2 Opportunities and threats from the external environment concerning the distribution of agricultural input services  
5.2.3 Is integration of grassroots and formal farmers' organisations feasible?  
5.2.4 Evaluation of performance in the cotton sector  
5.3 Synthesis of strategy, structure, and core capabilities of collective action in the distribution of agricultural input services  
5.3.1 The strategy of collective action in the distribution of agricultural input services  
5.3.2 The structure of collective action in the distribution of agricultural input services  
5.3.3 Core capabilities of collective action in the distribution of agricultural input services  
5.4 Concluding comments  

#### 6

**Primary health services in the Couffo region**

6.1 People and health-care practices in the Mono-Couffo region  
6.2 The existing health-care system in the Mono-Couffo region  
6.2.1 The existing health-care system in the Mono-Couffo region  
6.2.2 Centrally planned health facilities in the Couffo region  
6.2.3 Locally planned health facilities in the Couffo region  
6.2.4 Parallel channel for the distribution of health services in the Couffo region  
6.2.5 Traditional medicine in the Couffo region  
6.3 Utilisation of the PHSs in the Mono-Couffo region  
6.3.1 Curative health care in the Mono-Couffo region  
6.3.2 Preventive health care in the Mono-Couffo region  
6.4 Resource-performance relationships in the health sector  
6.4.1 Resource performance and policy issues in the health sector  
6.4.2 Relevance of knowledge to resource-performance in the health sector  
6.5 Health policy sequencing in Benin  
6.5.1 Health policy from the 1960s to the 1970s: failure to achieve full coverage  
6.5.2 Health-policy reforms from the late 1970s onward: community involvement and the cost-recovery scheme  
6.6 In conclusion  

#### 7

**Roles of the public, private and local organisations in the distribution of the primary health services in the Couffo region**

7.1 Strategy of the public-sector organisations in the distribution of health services  
7.1.1 Long-term goals of the public-sector organisations in the distribution of health services
### Table of Contents

#### 7.1.2 Course of action in the public-sector organisations for the distribution of primary health services

7.1.3 Resource allocation in the public-sector organisations for the distribution of primary health services

7.2 Structure of the public-sector organisations in the distribution of primary health services

7.3 Core capabilities of the public-sector organisations in the distribution of primary health services

7.4 Strategy, structure and core capabilities of the non-government health organisations

7.4.1 Strategy of the non-governmental health organisations

7.4.2 Structure of the non-governmental health organisations

7.4.3 Core capabilities of the non-governmental health organisations

7.5 Public-private roles in the distribution of primary health services

7.6 Strategy, structure, and core capabilities of local organisations in the distribution of health services

7.6.1 The strategy of the local organisations in the distribution of primary health services

7.6.2 Structure of local organisations in charge of the distribution of primary health services

7.6.3 Core capabilities of local organisations in the distribution of primary health services

7.7 In conclusion

NOTES

#### 8 Collective action in the distribution of primary health services in the Couffo Region

8.1 The performance of collective action in the distribution of primary health services

8.1.1 People's utilisation of the formal primary health services

8.1.2 People's utilisation of the non-governmental health services

8.2 SWOT analysis of collective action in the distribution of primary health service

8.2.1 Strengths and weaknesses of collective action in the distribution of primary health services

8.2.2 Opportunities and threats regarding collective action in the distribution of primary health services

8.2.3 Is the institutional environment appropriate for the performance of collective action in the distribution of primary health services?

8.2.4 Evaluation of performance in the primary health services

8.3 Synthesis of strategy, structure, and core capabilities of collective action in the distribution of primary health services

8.3.1 Strategy of collective action in the distribution of primary health services

8.3.2 Structure of collective action in the distribution of primary health services

8.3.3 Core capabilities of collective action in the distribution of primary health services

8.4 Concluding comments
