Genetic insights, clinical efficacy and practical implications of genetic screening for familial hypercholesterolemia
Umans-Eckenhausen, M.A.W.

Citation for published version (APA):
## Contents

Introduction and overview of this thesis ................................................................. 9

**PART I: GENETIC INSIGHTS**

Chapter 2: LDL receptor mutations and cardiovascular risk in a large population without selection for cardiovascular disease. Umans-Eckenhuisen MAW, Sijbrands EJG, Fouchier SW, Kastelein JJP, and Defesche JC. *Circulation* accepted for publication ......................................................... 43

Chapter 4: Better screening and better treatments – reducing the burden of familial hypercholesterolaemia. Kastelein JJP, Umans-Eckenhuisen MAW, and Defesche JC. *Submitted for publication* .................................................... 67

**PART II: CLINICAL EFFICACY**

Chapter 7: A cost-effectiveness analysis of the genetic screening programme for Familial Hypercholesterolemia in the Netherlands. Wonderling D, Umans-Eckenhausen MAW, Marks D, Defesche JC, Kastelein JJP and Thorogood M. *Submitted for publication*

**PART III: PRACTICAL IMPLICATIONS**

Chapter 10: Summary

Samenvatting
