# Contents

1 Introduction ............................................................................................................. 1
   1.1 Background ........................................................................................................ 1
   1.2 Research questions ............................................................................................. 2
   1.3 Contents .............................................................................................................. 6

2 Theories on the effect of payment systems ......................................................... 11
   2.1 Introduction ......................................................................................................... 11
   2.2 Different theories from the literature .................................................................. 12
      2.2.1 Introduction ................................................................................................ 12
      2.2.2 Information-asymmetry between doctors and patients ............................... 14
      2.2.3 Does the doctor have complete information? .......................................... 17
      2.2.4 What does the doctor want? ................................................................. 22
      2.2.5 Conclusions on the basis of theory ......................................................... 27
   2.3 Empirical findings .............................................................................................. 28
   2.4 Preferred theory and hypotheses ....................................................................... 30

3 Specialist health care in the Netherlands ......................................................... 35
   3.1 Organisation of Dutch health care .................................................................... 35
   3.2 Problems of the organisation before the experiment ........................................ 43
   3.3 Origin of the experiment .................................................................................. 44

4 Financial arrangements in the experiment and design of the research project ........................................................................................................ 49
   4.1 Financial arrangements ....................................................................................... 49
      4.1.1 Introduction ................................................................................................ 49
      4.1.2 Common elements and boundaries .......................................................... 50
      4.1.3 Individual aspects of the financial agreements ........................................ 53
      4.1.4 Overview of project plans ....................................................................... 56
   4.2 Design of the research project .......................................................................... 60
8.3 Estimation results ................................................................. 158
8.4 Simulation results ............................................................... 165
8.5 Conclusion .......................................................................... 171

9 Conclusions and summary ...................................................... 173

Appendix 4.1 Financial arrangements in the five different projects .... 201
  Project ‘Noord-Holland Noord’ ............................................. 201
    Background of the project ................................................ 201
    Financial aspects ............................................................. 202
  Ziekenhuis Lievensberg in Bergen op Zoom ....................... 204
    Background of the project ................................................ 204
    Financial aspects ............................................................. 204
  Scheperziekenhuis Emmen .................................................. 207
    Background of the project ................................................ 207
    Financial aspects ............................................................. 208
  Regional project Rijnmond .................................................. 210
    Background of the project ................................................ 210
    Financial aspects ............................................................. 211
  Regional project ‘Ziekenhuizen Noord-Limburg’ .................. 214
    Background of the project ................................................ 214
    Financial aspects ............................................................. 215

Appendix 4.2 Weights for production parameters that were used in the different projects ...................................................... 217

Appendix 4.3 Calculation of the parameter revenues ..................... 221

Appendix 5.1 Description of the data .......................................... 227

Appendix 6.1 Description of data for the duration of stay in the hospital of clinical patients ...................................................... 229
