CONTENTS

Chapter 1
Introduction
1.1 Subject and motivation ....................................................... 1
1.2 Positioning in the scientific field ........................................ 4
1.3 Data ............................................................................. 5
1.4 Outline ........................................................................ 6

PART I

Chapter 2
Trade, Migration and Welfare
2.1 Introduction .................................................................. 7
2.2 Standard theories of trade ............................................... 10
2.2.1 Ricardian model: comparative advantage ......................... 10
2.2.2 Heckscher-ohlin model: factor proportions ....................... 12
2.2.3 The specific factor model ............................................. 14
2.2.4 Economies of scale, imperfect competition and trade .......... 16
2.3 International trade and factor mobility ............................... 17
2.3.1 The European union ................................................... 19
2.3.2 The United states ....................................................... 21
2.4 Purposes of migration and trade policy ............................... 24
2.5 Undocumented immigrants and informal economy ................ 25
2.6 Conclusions .................................................................. 27

Chapter 3
The Effect of Immigration on Earnings: Theory
3.1 Introduction .................................................................. 29
3.2 Theory ........................................................................... 30
3.3 A system of connected local labour markets ......................... 34
3.3.1 Heterogeneous labour by gender ................................... 35
3.3.2 Heterogeneous labour by skill level .............................. 43
3.4 Estimating wage elasticities ............................................... 50
3.4.1 Reduced-form .......................................................... 50
3.4.2 Production function ................................................... 54
3.5 Conclusions .................................................................. 60
Appendix ............................................................................ 61
Chapter 4

The Effect of Immigration on Earnings: The Netherlands

4.1 Introduction .......................................................... 65
4.2 The ebb and flow of migration .................................... 66
  4.2.1 Migration until 1945 ........................................... 66
  4.2.2 Migration between 1945-1998 ............................... 67
    4.2.2.1 Immigration ........................................... 68
    4.2.2.2 Emigration ........................................... 70
    4.2.2.3 Refugees ............................................. 72
    4.2.2.4 Migration policy ..................................... 72
    4.2.2.5 Undocumented workers ................................. 74
  4.2.3 Labour market effects of immigration ..................... 75
4.3 Reduced-form elasticities .......................................... 77
  4.3.1 GPD data .................................................. 78
  4.3.2 CBS data .................................................. 79
4.4 Production functions ............................................... 87
  4.4.1 Heterogeneous labour by gender ........................... 89
  4.4.2 Heterogeneous labour by skill level ....................... 91
4.5 Production functions with capital ............................. 93
4.6 Conclusions .......................................................... 97
Appendix ................................................................. 99

Chapter 5

The Effect of Immigration on Earnings: The United Kingdom

5.1 Introduction .......................................................... 109
5.2 UK's immigration experience ..................................... 110
5.3 The data ............................................................. 114
5.4 Reduced-form elasticities .......................................... 118
5.5 Production functions ............................................... 122
  5.5.1 Heterogeneous labour by skill level ....................... 123
  5.5.2 Heterogeneous labour by gender ........................... 128
5.6 Conclusions .......................................................... 130
Appendix ................................................................. 132

Chapter 6

The Effect of Immigration on Earnings: Norway

6.1 Introduction .......................................................... 135
6.2 Immigration .......................................................... 137
7.3 Data ................................................................. 138
7.4 Reduced form elasticities .......................................... 141
6.5 Production functions ............................................... 148
  6.5.1 Heterogeneous labour by gender ........................... 149
Chapter 7
The Effect of Immigration on Earnings: A Comparison of The Netherlands, United Kingdom and Norway

7.1 Introduction
7.2 The impact of immigration in global context: What can we measure?
7.3 The impact of immigration on wages: Evidence from the Netherlands, United Kingdom and Norway
7.3.1 Estimation strategies and data limitations
7.3.2 Comparison of the three countries
7.3.3 Evidence: what we have learned?
7.3.4 Comparison with existing literature
7.4 Conclusions

PART II

Chapter 8
Ethnic and Gender wage gaps in the Netherlands

8.1 Introduction
8.2 The labour market position of ethnic minorities
8.3 The model
8.3.1 Data
8.3.2 Wage differentials
8.3.4 Empirical results
8.4 Segregation of labour force: part-time and flex jobs
8.4.1 Employment states by gender and ethnicity
8.4.2 The model and estimations
8.4.3 Simulations
8.5 Conclusions

Chapter 9
Ethnic Minorities in Amsterdam

9.1 Introduction
9.2 Restructuring employment
9.2.1 Decomposition of changes in employment structure
9.3 Potential labour supply
