<table>
<thead>
<tr>
<th>Part I</th>
<th>12</th>
<th>General introduction</th>
</tr>
</thead>
</table>
| Chapter 1 | 14 | Current insight into the molecular biology of Barrett’s oesophagus and its potential clinical application  
*Invited review for Surgical Oncology*

<table>
<thead>
<tr>
<th>Part II</th>
<th>34</th>
<th>Optimizing diagnostic tools for tailored therapeutic decision making</th>
</tr>
</thead>
</table>
| Chapter 2 | 36 | Histopathologic features of HGD and early adenocarcinoma of the oesophagus or gastro-oesophageal junction predicting eligibility for local endoscopic treatment  
*Accepted Gastrointestinal Endoscopy*

| Chapter 3 | 54 | Clinical significance of immunohistochemically detected micrometastases in histologically negative lymph nodes of patients with adenocarcinoma of the distal oesophagus or gastric cardia  
*Submitted*

<table>
<thead>
<tr>
<th>Part III</th>
<th>72</th>
<th>Prognostic and therapeutic potential of cyclooxygenase-2</th>
</tr>
</thead>
</table>
| Chapter 4 | 74 | The role of cyclooxygenase-2 in the development and treatment of oesophageal adenocarcinoma  
*Scandinavian Journal of Gastroenterology*  
2003; 239:87-93

| Chapter 5 | 92 | Prognostic significance of elevated cyclooxygenase-2 expression in patients with adenocarcinoma of the oesophagus  
*Gastroenterology* 2002; 122:1800-1807

| Chapter 6 | 110 | Comparison of cyclooxygenase-2 expression in adenocarcinomas of the gastric cardia and distal oesophagus  
*Gut* 2003; 52:1678-1683

| Chapter 7 | 126 | Prognostic role of cyclooxygenase-2 expression in patients with squamous cell carcinoma of the oesophagus  
*Submitted*
| Chapter 8 | 146 | Selective cyclooxygenase-2 inhibition as neo-adjuvant therapy for patients with adenocarcinoma of the oesophagus or gastric cardia  
To be submitted |
| Part IV | 168 | Development of efficient and selective gene therapy |
| Chapter 9 | 170 | The current status of cancer gene therapy and its application in oesophageal carcinoma  
Invited review for Digestive Surgery |
| Chapter 10 | 192 | A genetically retargeted adenoviral vector enhances viral transduction in oesophageal carcinoma cell lines and primary cultured oesophageal resection specimens  
Annals of Surgery 2003; 238:815-824 |
| Chapter 11 | 212 | Gene therapy for oesophageal carcinoma: the use of an explant model to test adenoviral vectors ex vivo  
Cancer Gene Therapy 2004; 11:289-296 |
| Chapter 12 | 230 | Histopathologic evaluation of an animal model for Barrett’s oesophagus and oesophageal adenocarcinoma  
Submitted |
| Chapter 13 | 248 | Adenoviral induction of endogenous Cyclooxygenase-2 limits the selectivity of transcriptionally targeted adenoviral gene therapy for gastrointestinal malignancies  
Submitted |
| Part V | 268 | Summary, Conclusions and Epilogue |
| Chapter 14 | 270 | Summary of studies / Samenvatting |
| Chapter 15 | 286 | Epilogue: general discussion, clinical implications, and future research |
| Appendices | 296 | List of contributing authors  
List of publications  
Acknowledgements / Dankwoord |
