Acknowledgements

This book is dedicated to the memory of my father, Ian Lawson, a true critical realist who died of cancer in March 2002. His wisdom and sense of humour lives on and provided much good counsel when finishing this book.

Sincere thanks go to my promoters, Dr. Jacques van de Ven and Prof. Dr Willem Salet for their insight, support, and motivation. Thanks also go to David Evers, Dr Pieter Terhorst and Prof. Dr Jan van der Schaar for reading and commenting on earlier drafts and my comrades in research, Vivienne and Gary Milligan, Lianne van Duinen, Ralph Ploeger, Micheal Alexander, Luis Arribas Sandonis, Leonie Jansen-Janssen and Stefan Metaal. Many thanks to all my other colleagues and friends at the Amsterdam Study Centre for the Metropolitan Environment (AME) and the Netherlands Graduate School for Urban Research (NETHUR) and to helpful acquaintances made along the way at various conferences whose commentary provided much momentum for my research process. Thanks also to Hans Fresen for his professionalism and expertise in designing the book's cover.

Finally, heartfelt thanks to my closest friend and partner Taco Stoppels and his family Lyda and Henk Stoppels for their support, especially when I was burning the midnight oil during the final drafts and little Margot for her good humour and sense of adventure.
