Notes on Contributors

Maria Lisa Alano is a PhD candidate at the Amsterdam Institute for Social Science Research (AISSR), University of Amsterdam, The Netherlands. Her current research deals with gender and agrarian change in relation to large-scale land investments in the Philippines. Further research interests include indigenous peoples and land policies.

Ian G. Baird is an Associate Professor of Geography at the University of Wisconsin-Madison, USA, where he is also affiliated with the Center for Southeast Asian Studies and the Nelson Institute of Environmental Studies. His research interests include the intersection between the political ecology of hydropower dams and large-scale land acquisitions, freshwater fisheries, identities/ethnicity, indigeneity, borderlands/boundaries, development and post-development, political and military resistance, and marginal histories in mainland Southeast Asia.

Laurens Bakker is Assistant Professor at the Department of Anthropology at the University of Amsterdam, The Netherlands. His research focuses on land law and land conflict in Southeast Asia, as well as on the influence of informal militias in Southeast Asian local politics, society and economy.

Keith Barney is a Lecturer at the Resources, Environment and Development Group, at the Crawford School of Public Policy, Australian National University in Canberra, Australia. His research interests lie at the intersection between political ecology, resource geography and agrarian transitions in mainland Southeast Asia. Keith has been engaged in research in the Mekong Region for the past 16 years.

Alice Beban is a Lecturer in Sociology at the School of People, Environment and Planning, University of New Zealand. Her research addresses land rights, agricultural production and gender concerns to understand people's changing relationships with land.

Jean-François Bissonnette is a Postdoctoral Researcher at the University of Quebec in Outaouais, Canada. He works on agrarian issues and global environmental governance in the context of global regulatory frameworks, especially those pertaining to agriculture and forestry certification initiatives and climate governance.

Rob Cramb is Professor of Agricultural Development in the School of Agriculture and Food Sciences at the University of Queensland, Australia. His research focuses on agricultural development and agrarian change in Southeast Asia. He is currently involved in research on cassava value chains in Southeast Asia.
